The screw-steamship *Weser*, of the Bremen line, John Heinrich Gartjen, Esq., Commander, from Queenstown, Ireland, March 6, arrived at this port last evening.

On the 4th inst., the inhabitants of Cork presented an address to Captain Gartjen, felicitating themselves upon the accident which had brought his magnificent vessel into their port, and expressing a hope that the owners would decide to make it an established way-station. Captain Gartjen replied, cordially uniting in the wish.

The steamship *New-York*, from New-York for Bremen, arrived at Southampton on the 3d inst.

The steamer *Pacific* sailed from Galway on the evening of March 5, with 212 passengers and a full cargo, for New-York.

We are under obligations to Capt. Gartjen, of the *Weser*, for the prompt delivery of our summary of news from our Liverpool agent; also, for late papers and important telegraphic intelligence from the British and Irish Magnetic Telegraph Company.

The news by the present arrival is interesting.

GREAT BRITAIN.

PROCEEDINGS OF PARLIAMENT—PROSPECTS OF THE REFORM BILL—OTHER MINISTERIAL CHANGES, ACTUAL AND PROSPECTIVE—PROBABLE DISSOLUTION OF THE DERBY MINISTRY—MISCELLANEOUS.

The proceedings in Parliament, on the 2d instant, were devoid of interest.

On the 3d, Earl Grey presented a petition complaining of the prevalence of piracy, in the Chinese Seas, and stating that some of the officials were in partnership with pirates.

The Earl of Carnarvon admitted that complaints had been preferred, but he believed they were much exaggerated. Mr. Calder, the Colonial Secretary, and his wife, had been charged with having received bribes from pirates, but, upon inquiry, Mr. Calder was fully acquitted.

In the House of Commons, Mr. S. Fitzgerald stated that the notice given to the Hanoverian Government on the 14th of August last for the termination of the Stade dues was still in force, and that under it those dues would terminate on the 14th August next.

Mr. Mitchell moved a resolution asserting the opinion of the House that the duties on foreign and colonial wood ought to be repealed.

Mr. Disraeli opposed the motion. He said he should be happy to put an end to the timber duties, but the state of the Exchequer would not enable him to do so.

The motion was rejected by the majority of 56.

Mr. Buxton moved for a Select Committee to inquire into the present state of the West Indies, and into the best means of promoting immigration there.

Sir E. B. Lytton opposed the motion, which, he said, was founded on a misconcepion of the real condition of the Islands.

After some debate the motion was withdrawn.

The Marriage Law Amendment bill was finally passed by a majority of 48.

In the House of Lords, March 4, Lord Wodehouse inquired if any guarantee had been granted to the Atlantic Telegraph Company.

The Earl of Derby said no unconditional guarantee had been granted, but a conditional guarantee was under consideration by which a liberal rate of interest amounting to 8 per cent. would be assured on the capital, but contingent upon the success and continued only as long as telegraphic communication was continued without interruption.

In the Commons, March 4, Mr. Crawford asked the Under Secretary for Foreign Affairs whether steps were being taken to induce the Portuguese Government to satisfy the claims of British traders, for injuries done to them on the African coast.

Mr. S. Fitzgerald said the Portuguese Government had been repeatedly applied to by our own, to grant redress for those injuries, but, he was sorry to say, hitherto without effect.

Lord J. Russell said he had heard that, from what had been said privately by the Chancellor of the Exchequer, there was to be no Irish Reform bill at all.

The Chancellor of the Exchequer said it was advisable the principles of the English bill should be affirmed before the Irish bill was introduced.

In regard to the New Government Reform bill, the *Daily Telegraph* says: "We have the best authority for stating that an important movement has taken place amongst the leaders of the Liberal Party. Lord Palmerston and Lord John Russell have agreed to lay aside their little differences and go warmly in against the Government Reform bill. The questions now to be determined are, Whether a meeting on the new measure is to be called, and which of the noble Lords is to convene it? If it be held at Lord John's, it is understood that Lord Palmerston will attend.

The *Star* confirms this, and states that there would probably be a meeting at Lord John Russell's on the 14th inst., to confer as to the course to be taken by the Liberal Party on the Government Reform bill.

The *Globe* says we have every confidence the measure will be dealt with in no desire to make the crisis subservient to personal ends, and that the principal members of the Liberal Party will be animated with a spirit of coöperation which the great interests they represent have a right to demand on an occasion so important.

The *Times* has some sarcastic remarks about the absence of an indignation meeting on the Government Reform bill. The *Times* criticises the measure more freely. The bill has apparently been brought in for no other purpose than to satisfy parliamentary exigencies, as it is not clear what serious mischief its framers propose to remedy. The *Times* urges that to allow a Tory Ministry to bring in a reform bill at all implies a pledge of moderate expectations. The bill may, however, as well be read a second time, with the view of improving it in Committee, and proceeding, if the house be so minded, in another session with that redistribution of seats for which this bill makes no provision.

The *Daily News* denounces in the strongest terms the device respecting voting papers, which is capable of being converted into a means of oppression and fraud.

The *Herald* repeats its eulogium of the fairness and moderation of the scheme.

The *Morning Post* does not think the bill can pass a second reading, and, therefore, looks forward to a Ministerial crisis.

The *Herald* appears to intimate that Lord John Russell and Mr. Bright have come to some understanding with reference to the course to be pursued on the Reform bill.

At the Queen's levee, Mr. Dallas presented to Her Majesty, Bishop Delancey, of Western New-York, and his son, Wm. H. Delancey, Jr.]

Messrs. Alfred Skeen and Archibald Freeman, who formerly occupied a good position in London as timber brokers, and who failed in June last, had been convicted of misappropriating a warrant for a cargo of timber, and were sentenced to twelve months imprisonment with hard labor.

The London *Times* in its City article has some satirical remarks upon the recent Message of Governor Packer, of Pennsylvania, and takes strong ground of exception to the Governor's laudatory comments on the untarnished credit of the State.

The *Daily News* publishes a long and remarkable letter addressed by Signor Farini, the Italian historian and statesman, to Lord John Russell on the Italian question. It declares that the question at issue between Sardinia and Austria is not a question of reform in one State of Italy or another, nor is it a sentimental question of nationality. It is a duel of two contending principles and a question of life, of bread, of house and home for thousands of exiled and suffering men. It is not so much a political as a merely humane question. He hopes England will join France in securing the cause of Italian progression.

In addition to the Cabinet changes reported by the *City of Washington*, Lord Henry G. Lennox had resigned his office as one of the Lords of the Treasury, and was succeeded by Mr. Peter Blackburn. Mr. Lygon, M. P. for Tewkesbury, will succeed Lord Louvaine at the Admiralty. The London *Morning Advertiser* repeats the assurance that the Marquis of Salisbury, Lord J. Manners and Sir Edward Lytton only hold office temporarily.

In regard to the retirement of Sir Bulwer Lytton, the *Birmingham Journal* says "that event will take place as soon as a proper person is found to succeed him. Sir B. Lytton only holds office till that time, and we have reason to know that he declines to consider any question not of a pressing kind expressly on that ground. It is understood that Lord Chelmsford will hold on, if possible, till April, and will then step into the Chief Justiceship of the Court of Exchequer, which Chief Baron Pollock will then make it convenient to vacate."

Lord Louvaine, addressing his constituencies for reëlection, makes no reference to the Reform bill at all. The prospectus of the National Flax Company (limited) has been issued with a proposed capital of £200,000 in £1 shares.

The *Herald* states that defalcations have been discovered in the accounts of a clerk long in the service of one of the London private banks.

FRANCE.

FRENCH AVERSION TO THE WAR—TRANQUILLIZING ASSURANCES OF THE EMPEROR—WARLIKE ARDOR OF PRINCE NAPOLEON—WITHDRAWAL OF TROOPS FROM ROME—COUNT CAVOUR IN PARIS.

On the Budget being brought up for discussion, on Wednesday, March 1, the Committee declared, by a majority of 10 to 4, they could not examine a peace budget in the presence of war demonstrations on all sides, and that a war budget would be required. They pointed out, moreover, that it would be ridiculous to take the proposed figures into consideration, when expenses already incurred have caused the requirements of the Government considerably to exceed the amounts demanded; and also that, as representing the views and interests of the nation, they did not see a sufficient motive for France to be committed to the sacrifices apparently contemplated. They therefore resolved to await explanations from the Government; and although the minority then proposed an amendment, to the effect that the Government might, nevertheless, aid in national honor, and should they require it count on the assistance of the Chamber, it was forthwith rejected, the Committee persisting resolutely in their original vote.

It is mentioned, as a significant fact, that the seven Standing Committees of the Legislative body, when the Budget comes on, will demand the suppression of the new Ministerial Department, of which Prince Napoleon is the head, as a mark of disapprobation, and of the general sentiments of the country.

The Paris correspondent of the *Daily News* says that the utter absence of war enthusiasm even in the army is bitterly lamented, and causes unfeigned surprise in the Imperial circle. The soldiers whose term of service has expired, do not reënlist in spite of the great advantages which are held out to them.

The *Times* Paris correspondent says that in a very recent interview between the Papal Nuncio in Paris and M. Walewski, the latter, who is strongly opposed to war, spoke so much to the point on the obstinacy of the Pontifical Government, in refusing the concessions so much required by its subjects that the Nuncio is said to have asked whether it was meant to compel him to demand his passports. The reply was that there was no intention of the kind, but that this was no moment to disguise the truth.

The same authority states that the activity which lately prevailed at Marseilles had relaxed a little, as if either enough had been done in the way of preparation for war, or proceedings were suspended till something was known of a pacification.

The Havre journals announce that Prince Napoleon has just entered into a contract with a great shipping house of Bordeaux, for the conveyance of ten thousand Chinese immigrants into Martinique.

The tone of the Government journals was becoming still more belligerent, and the various correspondents of the London journals write as if war was likely to be the only solution of the difficulty.

The Paris *Constitutionnel* says: "We learn that in consequence of the communication addressed by Cardinal Antonelli to the French Ambassador at Rome, the Emperor has ordered the immediate evacuation by our troops of the Pontifical city. A message received here, asserts that the French *corps d'armée* had been forthwith withdrawn to Civita Vecchia, there to await the transport vessels which will convey the troops back to France.

The *Moniteur* of the 4th instant, says that the statement in the *Constitutionnel* announcing the evacuation of Rome by the French troops, is at least premature.

The latest correspondence of the London *Times* says, that confidence in the success of Lord Cowley's mission to Vienna, was, among official people, reduced to the very lowest degree.

The *Moniteur* of Saturday, March 5, contains an article from which the following is an extract: "The serious condition of Italian affairs has attracted the attention of the Emperor, whose endeavors are to conclude an alliance in furtherance of the interest of France. The Emperor has promised the King of Sardinia to protect him against any aggressive acts o Austria, but his promise extended no further. The Emperor denies that France is making warlike preparations. She has not exceeded the effective force she is accustomed to maintain during peace. Assuming that preparations in the arsenals have received any extraordinary impulse, it is because changes were necessary in our artillery and in the whole of our fleet. All our naval preparations are limited to the arming of four frigates and four transports to meet imminent emergencies. It is absurd to represent the Emperor as pushing, war and to cast on him alone the responsibility of having caused warlike preparations in Enrope. Where can any one point out words, diplomatic notes or acts implying the wish of the Emperor to provoke war. The Emperor is now examining the various reasons of the present complication, but this must not be regarded as any provocation of war on his part. Besides, to examine these questions is to meet them in a diplomatic way, and nothing authorizes the belief that the issue will not be favorable to the continuation of peace. It is reported that the King of Naples has offered to furnish the Pope with battalions of Swiss troops which will probably induce the Emperor to relinquish his intention of withdrawing his troops from Algeria."

The Paris correspondent of the *Herald* states that the tone of the French Government papers becomes more warlike every day, and, in noticing Lord Brougham's statement that the present preparations of France are only to build up the drain caused by the Crimean war, asks how this is reconcilable with the fact that the horses belonging to artillery regiments have been increased from a peace footing of 700 to 1,400?

The Paris correspondent of the *Times* reports an animated conversation which took place between Prince Napoleon and Count Persigny, at the Tuileries, on Sunday, when they both attended the ceremony of depositing the Princess' marriage contract. The report is that Prince Napoleon expressed his contempt of the treaties of 1815, and thought that Italy should be made independent in spite of them. As for public opinion anywhere, if it contravened this policy, it should be disregarded. The Prince is reported to have spoken of political and social subjects in a manner that could not be surpassed by a provisional government in the first excess of revolutionary wildness. Count de Persigny consequently replied, that such language and such principles were mischievous, not merely to the Imperial Government, but, if carried out, would lead infallibly to the ruin of the best interests of the country, and they should never cease to oppose them.

The colonels of the French regiments are instructed to be ready to call in the men belonging to their regiments who are out on furlough. The Twenty-seventh regiment of the Line has received the whole of its equipments, even to its field tents, and is under orders to move at the shortest notice.

M. Alexandre, Minister of Foreign Affairs to Prince Couza, has just left for London. During his stay in Paris he was received by the Emperor.

Orders have been sent to Cherbourg to arm and prepare the Imperial yacht to sail on the 15th April. The furniture for the Imperial apartments on board is to be sent from Germany at the end of the present month. The State apartments at Fontainebleau are to be got ready, and it is rumored that a visit is expected from important personages.

A report was current at London that Count Cavour, the Sardinian Prime Minister, had paid a flying visit to Paris. There was likewise a report that Austria had made counter proposals to Lord Cowley, which had been supported by Prussia. Neither of these obtained much credence.

The Emperor Napoleon had addressed a letter to Sir Francis Head, thanking him for his exertions in the Imperial cause. His Majesty expressed his surprise that the English should attack him incessantly in the journals in their most unjust manner, as he has been their loyal ally. The correspondence appears in the *Times*.

AUSTRIA.

THE AUSTRIAN DIPLOMATIC CIRCULAR—THE EMPEROR FRANZ JOSEPH ANXIOUS FOR WAR—LORD COWLEY'S NEGOTIATIONS—WAR TEMPER OF THE GERMAN PEOPLE—ACTIVE PREPARATIONS FOR THE WORST—VARIETIES.

The Austrian dispatch addressed to the representatives of Austria at the different Courts of Germany, is published *in extenso*. War is considered in the Cabinet as the possible consequence of the intention of Austria to defend, against every attack, her rights in Italy, and satisfaction is expressed at the state o public opinion in Germany, which is united in an energetic protestation against a return of the days of the Confederation of the Rhine. The dispatch makes known the grounds which have induced the Cabinet to believe the moment is not come for the German Confederation to take decided measures, but it advises the German Governments mutually to communicate to each other their convictions on their danger, so that all certainty might be established, that in case of need Germany would, at the proper time, act in union with Austria.

It is stated from Vienna that the views of the Emperor had become determinedly warlike, and he was much embittered against France.

The Cabinet of Vienna had agreed to maintain 150,000 men in Lombardy, and to create fortifications in all directions. The Emperor proposed visiting Lombardy.

Lord Cowley was expected to leave Vienna on the 5th inst. Several banquets, Court and official, have been given in his honor.

It was stated that his first interview with the Emperor was unsatisfactory, but, according to late telegrams, subsequent negotiations had led to hopes of a successful result.

It was stated in military circles that the Archduke Albrecht and Baron Hess had been made Marshals.

The lower classes of Vienna were becoming exceedingly warlike.

The Austrian Government is said to have contracted with the Lombardo-Venetian Railway for the transport of 75,000 men during the month ending 20th March.

The official Vienna *Gazette* contains the following in its non-official part: "As soon as the modification in writing of Cardinal Antonelli shall arrive here, it is understood that the evacuation of the States of the Church by the Austrian troops will follow, because in this as in the entry of the troops the desire of the Holy Father is decisive."

The latest Vienna journals had assumed a more warlike tone. The *Oste Deutsche Post* plainly declared that Austria could not renounce the particular conventions which she had concluded with the Italian States.

It was said that Austria would grant to foreign vessels the privilege of navigating the Danube.

The Archduke-Governor had returned to Milan. The Austrian army in Italy had been placed on a war footing.

The Vienna correspondent of the *Times* says the war fever is increasing in Germany.

Le Nord declares that Lord Cowley did not deliver any letter of credence, but an autograph letter from the Queen to the Emperor of Austria.

A Vienna letter to the German journals at Frankfort says the recall of soldiers on furlough will augment the Italian army to the extent of 40,000.

GERMANY.

GERMANY SIDES WITH AUSTRIA—A PRUSSIAN MANIFESTO ON THE WAR QUESTION—A PACIFIC CIRCULAR OF COUNT WALEWSKI.

A Frankfort letter in the Berlin *Gazette* says that a circular dispatch has been received here, addressed by Count Walewski to the diplomatic agents of France in Germany. It is said that the dispatch confirms, in very positive terms, a hope in the preservation of peace, and particularly dwells on the settling of Italian affairs by diplomatic means.

The Prussian Cabinet, urged by the repeated proposals of several States of the Zollverein, decided upon proposing to the Zollverein resolutions prohibiting the export of horses on all the frontiers, without exception.

The circular issued by the Prussian Cabinet, on the 20th of February, expresses the opinion that the existing difficulties, and the real danger of a European rupture, do not arise so much from the impossibility of solving any special questions, as from the tone which has been assumed between the Cabinets of Vienna and Paris, and which has risen to such a height as to give rise to a serious uneasiness. The King's Government, animated with a sincere desire to preserve the validity of treaties, has directed its efforts to the task of pointing out, both at Paris and Vienna, the incalculable danger of a conflict. Our neutral position will enable us to give counsel to both sides. This position we share with the British Cabinet. In the coöperation of Russia also we see another guarantee for the successful result of our policy.

In Prussia the 7th army corps stationed in Westphalia is to be placed in a state of preparation. The South Monarchies have no chance but to declare in favor of Austria in case of a war with France.

ITALY.

PIEDMONT BORROWS MONEY OF HER OWN PEOPLE—PROVISION FOR THE NEAPOLITAN EXILES IN NEW-YORK—EXCITEMENT IN ITALY.

A public subscription to cover the new loan had been opened at the Bank of Turin. It was considered certain that the whole loan would be covered, if not exceeded.

Letters from Placenza announce that the number of Austrian troops in that place was increasing daily. Almost 12,000 men had been placed on a war footing since the 1st of March.

The Piedmontese Government is said to have taken measures, in conjunction with the authorities of New-York, to have Porri and his companions provided with money on their arrival in America, and to have a steamer placed at their disposal to convey them to Piedmont, if they wish to return to Italy.

The French semi-official journals announce that the Sardinain reserves are to be called under arms.

Gen. Giulay arrived at Milan with his staff Feb. 28.

The Archduke Governor has returned to Milan.

The Austrian army in Italy has been placed on a war footing.

PORTUGAL.

The question of a Corcordat had been finally settled, and the right of nomination had been vested in the Holy See.

RUSSIA.

A Marseilles dispatch states that there is a Russian army of 60,000 men on the Pruth, and that her army in Georgia has just been augmented.

An estimate has been drawn out of the expense of establishing an electric telegraph which will cross the whole of Eastern Russia and Siberia, and end at the Pacific.

The Czar has conceded permission to a joint stock company for the construction of a railway from the Don to the Volga. By this means the Mediterranean and Black Seas, the Sea of Azov, the Caspian Sea, Central Asia, and the most distant regions of Siberia, will be placed in communication with Odessa, Vienna, Paris and London.

TURKEY.

Advices from Constantinople to Feb. 26, state that the Minister of Finance has been dismissed. A convention had been signed for the purpose of forming a new Bank in London. Sir H. Bonworth has remitted a note to the Porte, in which he blames the non-fulfillment of the promise made by the humayoun. The Porte is increasing its military preparations, and all the rediffs have been called in. There is a violent agitation in Epirus and in Thessaly. The Commissioners of the Porte have quited Jassy and Bucharest.

Price Milosch is represented as adopting a more haughty tone towards the Porte, and his relations with Austria are becoming more embittered.

A letter from Jassy, the capital of Moldavia, says Austria refuses to affix her *visa* to passports delivered in the name of Prince Conza, but the representatives of the other Powers make no difficulty about so doing. The Moldo-Wallachian authorities, by way of reprisal, refuse their *visa* to Austrian passports.

INDIA.

The Bombay mail of Feb. 9 arrived at Alexandria on the 25th.

A general order from the Governor-General contains the following: "Lord Clyde announces that the campaign in which the troops under his immediate command have been engaged is closed, and that rebellion no longer exists in Oude."

On the application of Jung Bahadoor, British troops had entered Nepaul to assist in the reduction of the fugitive rebels. He had also issued a proclamation to the effect that he would surrender to the British Government all insurgents found within his territory.

Sir Hugh Rose was making active preparations for the destruction of the forts in the possession of the Rohillas.

Tantia Topee was flying towards Beekanur and Gondhpore.

Religious riots had occurred in Travancore.

The Nalvaba of Furruckabad had given himself up a prisoner.

Lord Clyde was unwell, and was about to proceed to Simla for the season.

A new loan was announced on the issue of Treasury bills, at an interest of 5½ per cent. Government Securities had fallen heavily in consequence.

The import market of Bombay was less active Cotton and Oil Seeds were lower. Money was very scarce. Freights had slightly improved. Exchange, 2s. 1⅛d. for credits.

CHINA.

Four days later intelligence had been received from China, the dates being Shanghae, January 10, and Hong Kong, Jan. 19.

The rates of Exchange continued with a favorable tendency for England.

AUSTRALIA.

The *Red Jacket* has arrived from Australia. She left Melbourne on the 2d of December. Her news is anticipated. She brings 53,000 ounces of gold and 100 passengers.

Intelligence to the Latest Moment.

London, Saturday-morning, March 4.

Daily News City Article, dated Friday evening.

Notwithstanding the suspense, the stock markets were firm, and late in the afternoon consols experienced an advance of ⅛@3-16 per cent. This favorable movement is attributed rather to the support accorded by the investers than any increase of confidence in the position of continental politics. This being the fourth of the month the discount market was active, but terms for best bills did not exceed 2⅛@2¼ per cent. The scrip of the Austrian Loan was quoted at 2½@2 per cent.

There were no gold operations at the Bank to-day. It is computed that during last week at least 10,000 Lombardo-Venetian Railway shares have been sold in London on foreign account. These operations to-day, however, slackened, and shares at once improved. On 'Change this afternoon bills on Holland and Frankfort were inquired for, and were quoted less favorable for this country. The principal feature, however, is still the rise in the Austrian Exchange.

Times City Article, dated Friday Evening.—The Funds opened at the steady prices of yesterday, and subsequently experienced a further rise of ⅛. A recovery of nearly ½ per cent. on the Paris Bourse, shortly after opening, was the chief cause of the better tone. There was likewise tranquillizing news from Germany. The settlements of the 4th of the month having been concluded, the supply of Money in the Discount market is abundant. The Colonial Produce markets during the week have been quiet, but prices were firmly maintained. The Traffic Returns of Railways in the United Kingdom for the week ending the 26th ult., show an increase of £31,500 over last year.

Commercial Intelligence.

LIVERPOOL COTTON MARKET.

Liverpool, Saturday, March 5.

The *Brokers' Circular* says: "Although the advices from America report continued large receipts, the accounts of a falling off in the quality have induced a speculative demand for the useful descriptions of American, which, combined with a good inquiry from the trade, have had the effect of advancing prices fully ⅛d. ⅌ ℔ upon last Friday's quotations." Other circulars call the advance on the week fully 3-16d., and in some cases ¼d., ⅌ ℔. The sales of the week foot up 77,890 bales, including 12,500 to speculators, and 7,750 to exporters. EVENING NEWS.

London, Saturday Evening, March 5.

The *Globe* announces that Viscount Harding has resigned the office of Under Secretary of State for War.

The *Moniteur* of to-day gives a denial to the statement of the Paris correspondent of the *Times*, as to an angry conversation respecting Italy between Prince Napoleon and Count Persigny.

The Stock markets have been decidedly firmer, in consequence of the official note in the *Moniteur*, and notwithstanding the sale of £100,000 of Consols, the funds have advanced ¼ ⅌ cent. Consols opened at 95⅝@95¾, for money and account, and closed at 95¾@95⅞. The new Three Per Cents opened at 96⅛@96⅜, and closed at 96⅜. In the share market, generally, firmness prevails.

THE PARIS BOURSE.

Paris, Saturday, March 5.

The pacific article in the *Moniteur* of this morning caused great excitement here. Rentes commenced at 68f. 50c., rose to 69f., and—though the agitation somewhat subsided—closed very firm at 69f. for money, and 69f. 10c. for account, being nearly ½ ⅌ cent. higher than at the close yesterday. Austrian Railway shares, 22f. Lombardo Venitian, 90f. higher.

The Patchogue Calamity Exaggerated.

To the Editor of the New-York Times:

Permit a Patchogue subscriber to correct some errors in the account of the freshet at that village which appeared in the City papers, including the Times of Wednesday last. The entire damage is less than $8,000—not $30,000. Mr. Roe, represented as a heavy sufferer, has sustained but little loss, and fulfills his orders as usual. He has employed Mr. Woodhill's men, so that few persons, if any, have been deprived of employment, and runs his lower mill night and day.

A CITIZEN OF PATCHOGUE,

NEWS BY TELEGRAPH.

FROM WASHINGTON.

The Question of an Extra Session—Reducing the Expenses of the Army—The Case of Mr. Sickles, &c.

Special Dispatch to the New-York Times.

Washington, Friday, March 18.

The Cabinet are still resisting the movement for an extra session, but their resistance is all in vain. The President's mind was made up on Saturday last as stated in Monday's Times, and his Proclamation may issue to-morrow. Attorney-General Black took the position that, as the Post-office Department would inevitably be dishonored in a few weeks, an extra session would come too late to save the credit of the Government. He therefore prefers a continuation of protest to the evils of an extra session. Senators Gwin and Lane are still here, anxiously awaiting the result of the pow-wow, before leaving for the Pacific Coast.

The Army Board, appointed by the Secretary of War to inquire into the best means of reducing the expenses of the Army, report in favor of concentrating the troops as far as possible into large garrisons near navigable waters, and in the vicinity of settlements—thus avoiding much transportation and reducing the price of supplies. The present small garrisons are more exposed to attack, and are less efficient than large ones would be. Large ones would form schools of instruction, insuring discipline and efficiency. The concentration of troops would reduce the number of posts, and necessarily the number of animals. The Board report favorably to the present system of foraging, and advise the purchase of horses in open market by the Quartermaster's Department. They think an increase of the rank and file would not materially increase the expense of the present army, nor is the proportion of officers now in commission too large. The Board recommends no change in the present system, except in letting contracts for transporting supplies. These contracts should be given in such qnantities that individuals of limited means could take them. The Board recommends legislation authorizing the enlistment of teamsters, and that the abandoned posts be sold at Washington to the highest bidders. The report of the Board is now under consideration by Secretary Floyd.

The District-Attorney had not an indictment against Mr. Sickles ready for the Grand Jury to-day. He was informed by Mr. Sickles' counsel that they should demand a speedy trial, and be ready to proceed immediately upon the coming in of the indictment. To this Mr. Ould replied that he would require time for preparation—perhaps a week or more—and that he considered it wrong to go to the trial under the present excited state of public feeling. This astonished the counsel and their client, who will apply to the Court for an immediate trial. That the accused should ask for time would not be surprising, but that the Government should, when all the facts to be proven by the prosecution are admitted, and all the witnesses present, may well surprise the public. But more surprising still is the District-Attorney's fear of an excited state of public feeling. What means this fear? Mr. Ould will aim to do right, but he should appreciate confinement in prison while preparing for trial and awaiting the abatement of public feeling. Any unnecessary delay will have the reverse effect.

[FROM THE REPORTER FOR THE ASSOCIATED PRESS.]

Washington, Friday, March 18.

The counsel of Mr. Sickles purpose making an application to the Criminal Court on Monday to commence the trial on Tuesday.

The Cabinet to-day did not consider the question of an Extra Session. A decision will probably be arrived at to-morrow.

The War Department has just issued a list of the promotions made in the various divisions of the Army since the 10th of December last.

The Railroad Convention at Buffalo.

Buffalo, Friday, March 18.

The Railroad Convention, pursuant to the adjournment, met at 9 o'clock this morning.

The Time Table Committee submitted a schedule of time between New-York and Chicago, making the starting time from New-York at 8 o'clock A. M.

This was objected to by the representatives of the Hudson River Railroad, who wanted the time of starting from New-York to be fixed at 6 A. M., saying that without this they utterly refused to concur in the report.

The report of the Committee was thereupon rejected by the Convention.

It was then moved that another Committee of Five be appointed to prepare a schedule of time which all might agree upon, or that they endeavor to effect a compromise.

After some debate the matter was entirely dropped, and the Convention adjourned.

A call has been issued for another Convention of those interested in the time of starting from New-York. It is to be held this afternoon.

The Convention of General Freight Agents is still in session. Mr. Moran refused to be bound by any compact, and it is likely that no result will be arrived at.

A Convention representing Southern, Western and Southwestern interests will be held at Columbus on the 23d inst.

The New-York Central Road, and the Canadian and Northwestern connections were fully represented at the time-table meeting this afternoon. The Erie, the Pennsylvania Central, the Baltimore and Ohio and the Southwestern lines were not represented.

A general schedule was agreed upon for leaving New-York at 6 and 11 o'clock A. M., and 5 o'clock P. M., running to Chicago in 36 hours, and to Cincinnati in 35.

The New-York Central Road advocate an increased rate of speed, while the other three Atlantic lines strongly oppose it.

The New-York Central Road also urge a modification of the existing tariff, which they claim operates to the injury of New-York, and in favor of Baltimore and Philadelphia. This is warmly seconded by Mr. Hammond, of the Chicago, Quincy and Burlington Road.

Mr. Moran states that the Erie Road will withdraw from the St. Nicholas Hotel compact on the 20th inst., owing to the Central Road making large deductions from the rates agreed upon.

Mr. Hammond moved that the general freight agents be requested to prepare a table of rates on through freight, to be presented to the Convention on assembling this evening. This was carried—the Erie Road voting with the Southern routes.

EVENING SESSION.

The Convention adjourned before 9 P. M.

No allusion was made to the time table.

The rates reported by the General Freight Agents were adopted. They reduce the figures to and from Cincinnati, St. Louis and other points, but the present rates are to remain unaltered until the 25th inst.

Next Wednesday, at 10 A. M., the Independen Convention is to assemble at Columbus.

Canadian Parliament.

Toronto, C. W., Friday, March 18.

In Parliament last night, Mr. Buchanan's motion that the House do not go into Committee on the New Tariff of the Inspector-General, was lost by a majority of 13. Mr. Buchanan's motion was looked on as a motion of want of confidence in the Administration. It is now probable that the new Tariff will be passed with slight modifications. The Inspector-General stated that when in Committee he would be willing to consider the propriety of deferring the operation of the new Tariff for such time as would enable the Upper Canada merchants to obtain their goods from the place of growth. This announcement, as well as the result on Mr. Buchanan's amendment, was received with loud cheers.

The Death of Mike Walsh.

CORONER'S INQUEST CONCLUDED—VERDICT APOPLEXY, INDUCED BY VIOLENCE.

Coroner O'Keefe concluded the investigation of the cause of the death of Mike Walsh yesterday morning at the Sixteenth Precinct Station-house. The room in which the inquest was held was crowded with people, most of them friends of the deceased. Tom Hyer and George Wilkes were among the witnesses examined. The verdict of the Jury, indicating the belief that violence had been resorted to, taken in connection with the testimony elicited yesterday, does very little to remove the mystery in which the case is shrouded.

At 10 o'clock A. M., the Coroner and Jury were in heir seats, and George Wilkes was called to the stand. He testified that he saw Mr. Walsh at 5 o'clock Wednesday afternoon, spoke with him a moment and promised to see him again in the evening; after passing the evening with Senator Broderick at the Metropolitan Hotel, he went to the Hone House a little before 12 o'clock, expecting to see Mr. Walsh there; Mr. Walsh was there engaged in conversation with Mr. Richelieu, Mr. Henry Fraser, Mr. Haley, and a policeman named John Smith; Ex Alderman Wilson and Mr. Mulligan were not there; Mr. Walsh was in a genial, cheerful humor and amused them all so much by his conversation that they stayed listening to him until nearly 2 o'clock; they then left Mr. Richelieu, Mr. Smith, Mr. Walsh and witness going out together; Mr. Richelieu, Mr. Walsh and witness went up Broadway together on their way home; Mr. Richelieu left them at Fourth-street; Mr. Walsh tried to persuade him to go further with them, remarking that the night was so very bright and beautiful; Mr. Richelieu declined, saying it was late and that he was tired and wanted to get home; Mr. Walsh and witness then went on together, not stopping at any place until they reached Astor-place where they parted, that being the place where witness' road turned off for home; Mr. Walsh had been drinking somewhat, but not so much as to cause him to knock against witness in walking; his mind was clear and altogether he was under good self-control; he bade witness "Good night" at parting, and started off in the direction which he usually took to go home; he was capricious, however, in the selection of his route; his coat was open when he left witness; he (witness) thought Mr. Walsh had his watch on, but could not recollect with certainty; he did not notice whether he had a ring on or not; he knew he wore no breast-pin, for he directed his attention to that fact, in consequence of his having missed Mr. Walsh's pin from his bosom for several weeks; had it been there he certainly would have seen it; it was an emerald pin, with a band of diamonds running across it; he (witness) gave it to him when they were together in Paris in 1855; Mr. Walsh was in a sufficiently clear state of mind and under sufficiently good self-control to go safely home.

Robert A. Knapp, of No. 223 West Seventeenth-street, sworn—He heard the cry of "Murder!" three times, and loud, and was awakened by it; he did not know from whom the cry came; after that he saw two men going down Seventeenth-street from the Eighth-avenue, walking quite fast; they stopped and looked up the street, and then went off; this was after one o'clock, and might have been between three and four o'clock; one of the men was dressed in black, and wore a black coat and black hat; the other had on a glazed cap; the cry came from Eighth-avenue, near this street; the men looked up towards the Eighth-avenue, and then walked off faster than before; he (witness) laid awake for half an hour afterwards, and then slept till seven o'clock.

George Dunlap, of No. 136 Eighth-avenue, sworn—Between two and three o'clock he heard a noise, and at first thought it was something falling from the top of the house; after that he heard some one say, "Come out of that, d—n your soul;" he lives in the upper part of the house where Mr. Walsh's remains were found; he was between sleeping and waking when he heard the noise, which was like a crash; immediately after it came he heard the words "D—n your soul, come out of that;" he was in bed in the front room over the store; he did not hear any persons run away from the place; about an hour after that it was morning, and the people were passing in the street.

Thomas Hyer, sworn—He resides at Florence's Hotel, Broadway; he saw deceased between ten and eleven o'clock Wednesday night; he left him at the Hone House, in company with Mr. Wilkes, between one and two o'clock; he had his watch and chain on; witness did not notice his ring; his coat was open, and his chain was hanging from his vest pocket; he had not been drinking much, and was steady; witness had often seen him more the worse for liquor than he was that night; he did not see him after that; he was informed of his death the next morning; it must have been two o'clock when he left him.

Jeremiah Haley, of No. 5 Essex-street, sworn—He met Mr. Walsh at the Hone House Wednesday afternoon, and saw him there again in the evening; from the Hone House they went to the New-York Hotel to see Mr. Breckinridge, but he was not at home; from there they went to Lafayette Hall, and thence back to the Hone House, where witness left Mr. Walsh, he thought between twelve and one o'clock; he had on his watch and chain, but witness did not know whether he wore his ring or not; the deceased knew what he was about; he had not drank enough to have it noticed; when witness left him his coat was unbuttoned; he saw him take out his watch to see what time it was.

Henry D. Felter, of No. 75 West Twenty-sixth-street, sworn—He met Mr. Walsh at Lafayette Hall, and went with him from there to the Hone House; he remained in Mr. Walsh's company until between one and two o'clock; he did not notice the watch or finger-ring of the deceased.

The jury here took a recess for half an hour in order that the coroner might proceed to the residence of Mrs. Catherine Walsh, the wife of the deceased, No. 208 West Twenty-first-street, and take her affidavit. Mrs. Walsh deposed that she left home with her husband, Wednesday, and proceeded with him as far as Broadway when they parted; he had on his watch but no ring or breast-pin; she did not see him alive after that.

When the jury reassembled Samuel G. Weiser was sworn. He testified that he was employed by Messrs. Mott and Waters, at No. 682 Broadway (the Hone House) and saw deceased there about 12 o'clock Wednesday night; Mr. Walsh remained there till 2½ o'clock; he was not under the influence of liquor to any extent; a stranger could not have noticed it; witness could not say whether he had his watch on or not; he thought deceased took a segar just before he went out; no one at the bar bought a number of segars; he did not notice that deceased had any segars in his pocket.

Stewart J. Smith, of No. 267 Elizabeth-street, sworn—He left deceased in company with Mr. Wilkes about two o'clock Thursday morning; they went up Broadway and witness went down; deceased was able to take care of himself; witness did not see him after that.

No more witnesses were examined.

Coroner O'Keefe briefly addressed the Jury, telling them that he would submit the case to them upon the testimony without comment.

The Jury retired at 1½ P. M., and at 2 o'clock returned with the following verdict:

"That the said Mike Walsh came to his death by apoplexy, produced from being precipitated down the stone steps of the area of the house No. 136 Eighth-avenue, on the morning of the 17th of March. And we are further of the opinion that, from the absence of his watch and chain, which were in his possession when last seen by his friends, and other circumstances, violence was resorted to by some person or persons unknown."

MIRAMON RUMORED TO BE AT THE GATES OF VERA CRUZ.

The New-Orleans papers contain additional news of interest brought by the *Quaker City* from Minatitlan.

By advices from the City of Mexico of the 23d ult., it appears that General Miramon was marching on Vera Cruz with an army of 2,500 men, and a reserve force of 2,000. He made his head-quarters at Orizaba, from which place he sent out a small force under Negrete, for the purpose of attacking the forces under General La Llave, at Jalapa. Negrete's forces were beaten, and he was forced to retreat to Perote.

The *Progreso* of the 27th ult. states that General Miramon was at Tlacotalpan, or Alvarado, with 3,000 men and a few pieces of artillery, and was slowly preparing to march upon Vera Cruz. It appears by the statement of the *Progreso* that the inhabitants of Vera Cruz were very anxious that Miramon should arrive, they having made every preparation for a desperate resistance, and being sanguine as to Miramon's defeat. Although the friends of the Juarez Government outside of Vera Cruz have but little fear of Miramon taking the city, it seems they have fears of his attacking and capturing the smaller places now in possession of the Liberal Party.

It was rumored that Cobos would head a force from Cordova against the smaller towns. If this should be the case, from the antecedents of Cobos, we may expect to hear of forced loans, the sacking of towns, and the consequent destruction of American and other property. The natives themselves were in great fear of the result.

A few minutes before the *Quaker City* left Minatitlan, it was rumored that an "express" had arrived, bringing information that Miramon had encamped under the walls of Vera Cruz with 5,000 men and 80 pieces of artillery.

It appears that the movement of the invading army on Alvarado and, *via* the sea-coast road, thence to Vera Cruz, was not a surprise. Miramon had, indeed, openly proclaimed this as the plan of his campaign, but it was not generally credited. And in fact, the diversion from the great central and direct road seems to have finally been determined on as a necessity to avoid the Liberal troops holding the invaders there in check.

The *Extraordinary* from the Capital, which should have connected with the *Tennessee*, but failed, has arrived at Vera Cruz. The *Progreso* says the detention was by special orders of Miramon, to prevent news of his movements being taken to Vera Cruz and to the United States.

The bust of Governor Chase, ordered by citizens of Cincinnati from the sculptor Jones, has been completed and delivered. Copies in plaster are to be sold for the benefit of the Orphan Asylums in the city.

LAW REPORTS.

Trial of James Stephens for the Murder of his Wife by Poison.

ELEVENTH DAY.

COURT OF OYER AND TERMINER.

Before the Hon. Judge Roosevelt.

The interest of this trial continues to increase, and yesterday a larger crowd was assembled at the doors of the Court-room, than has attended on any other day, since the commencement of the proceedings. As soon as the seats were filled, all persons, besides lawyers, and other privileged parties, were excluded, and by this arrangement the Court-room was not overcrowded.

The first witness called was

Mr. John Pullman, who was examined by the defence—He testified that he was a member of the Twenty-seventh-street Methodist Church; that he knew the Misses Bell, and that Sophia Bell had been for a long time in the habit of following her uncle, the defendant, as if she wished to marry him.

Mr. Richard Stephens, Mr. John Stephens, and Mr. John Bennett were afterwards examined. In the meantime Sophia and Fanny Bell were, on the application of the District-Attorney, brought into Court,—without objection from the defence, and accommodated with seats in front of the bar, to enable them to suggest questions to the District-Attorney, in reference to the evidence which might be propounded to impeach their reputations. The testimony of these witnesses was for the most part of a character unsuited for publication. The cross-examination of Mr. Hannah was not finished when the Court adjourned.

Decisions in Admiralty.

UNITED STATES DISTRICT COURT—MARCH 18.

Before Judge Betts.

ADDITIONAL DUTIES—SUGAR—UNDERVALUATION.

The United States vs. H. Pratt McKean et al.—This action was brought to recover duties on an importation of sugars from Manila in January, 1856. The sugars were shipped on a rising market and valued in the invoice at the price of the time of shipment. Before the vessel sailed the sugars rose in value more than ten per cent., whereupon the Government claimed to recover not only the duties upon the increased value, amounting to $1,356 55, but also 20 per cent. additional duties under the act of July 30, 1846, amounting to $12,977 90. The case was brought on for trial in December, 1857. The Court ruled that the plaintiff had given no legal proof entitling them to demand the additional duties, to which the plaintiff excepted, and thereupon a verdict was taken for the plaintiff by consent for the smaller sum of $1,356 55, subject to the opinion of the Court on a case to be made.

Held by the Court—That this increment of twenty per cent., though called "additional duties," yet strictly are no tax levied upon merchandise, and may probably be equally well called a fine or penalty imposed on the importer for not lawfully making up his invoice. They do not therefore become a charge upon the merchandise.

That the liability of the importer for such penalty must accrue otherwise than on an implied assumpsit to pay the duties legally taxable on the importation. It must be sought for in the statutory enactments which created it and provide the means for its recovery.

That proof of fraud might enable the plaintiffs to recover against the defendant without a formal observance of the provisions of law appointed for ascertaining the correctness of the valuations made upon the invoice, because direct fraud in the importer supplies a substantive cause of forfeiture without regard to the 20 per cent. undervaluation.

That there being no imputation of fraud here the prosecution must establish the indebtedness of the defendant according to the statute.

That no proof was given of the examination and appraisement of this importation in the manner directed by the acts of Congress.

That there was no evidence therefore authorizing a verdict for the plaintiff for the amount of the additional duties, and on that branch of the case judgment must be given for the defendant.

Judgment for the plaintiff for the agreed amount.

For the United States, Mr. Sedgwick; for defendants, Mr. Cutting.

CERTIFICATE OF PROBABLE CAUSE—SEIZURE.

The United States vs. The brig Henry.—This was a motion in behalf of the Collector of the Port for a certificate of probable cause for seizing the vessel for being engaged in the Slave-trade. The claimants objected that there was no manual arrest of the vessel by direction of the Collector, nor any process of law exhibited as authority for preventing her from going to sea.

Held by the Court—That, in addition to acts of manifest control of the vessel in port by United States officers under the authority of the Collector and the written stipulation of the claimants' counsel that the vessel was under actual seizure by direction of the Collector, it is proved that the Deputy Marshal in charge of her had a warrant in his possession regularly issued by this Court.

That this imports her seizure and detention by authority of law.

That on the facts sufficient probable cause is shown the Collector for the seizure.

Motion granted.

For the Collector, Mr. Sedgwick; for claimants Messrs. Beebe, Dean and Donohue.

DAMAGE TO CARGO—WHEAT—COAL-OIL—NEW-ORLEANS TRADE.

Nelson G. Nettleton et al. vs. The ship Fanny Fosdick.—This was a libel filed to recover damages against the ship for failing to deliver at New-York, in good order, 990 sacks of wheat shipped on board at New-Orleans, in December, 1858, for which customary bills of lading were signed. The wheat was unladen into lighters, in New-York, on Jan. 10, and was, as the libelant alleged, found to have been damaged by being improperly stowed near coal-oil, the stench of which penetrated and injured the wheat. The testimony showed that the ship was a general ship, and that it was the custom to stow together on board such ships sugar, molasses, hides, oils and other articles of a volatile character, unless otherwise agreed between the parties, or at least notice was given to the ship not to stow particular commodities together. No such agreement or notice was shown. There were 150 barrels of coal-oil stowed in the lower hold of the ship; 200 bags of the wheat were stowed there, about fifteen feet from the oil. The rest were stowed between the decks. When unloading, a separation was made between that stowed between decks and that in the hold. Very varying testimony was given as to the smell of the oil and its effect upon the wheat. It was shown that the wheat was in good condition to appearance, but that the odor had seriously diminished its market value. It was not shown positively, however, whether this odor was permanent or would be driven off by ventilation, and the samples in Court were declared by witnesses to be free of objectionable flavor.

Held by the Court—That on the evidence there was no fault on the part of the ship in lading the wheat on board in connection with the cargo she was carrying. That the ship did not take strictly the responsibility of a common carrier in respect to the carriage of the wheat. The shipper must be assumed to have laden his goods with knowledge of the usage of trade at this port in respect to general ships, and that shipowners in that class of business are not liable for damages to a cargo arising from gases or fumes generated by any of the contents of her lading during a voyage, not occasioned by any fault of the stowage and care of the cargo on board. (Baxter vs Leland, 1 Blatch., 526.)

That it is reasonable on the evidence to infer that the wheat stowed between-decks would not be injured by the coal-oil in the hold, full sixty feet off, and the libelant would fail to be furnished proof rendering the ship liable at any rate for more than the damage to the 200 bags. The libelant having voluntarily mixed those with the rest, cannot claim to hold the ship for the damage occasioned thereby.

That the libelants have established no right of action against the ship.

Libel dismissed with costs.

For libelants, Mr. Scudder; for claimants, Mr. Muzzell.

PLEADINGS—COLLISON.

James Lippincott et al. vs. The Schooner Ned.—This was a libel filed by the owners of the propeller *Freedom* to recover the damages occasioned by a collision with the schooner. The libel merely alleged that the propeller was on the 30th of June, 1856, run into and sunk by the schooner, and was thereby damaged in her hull and rigging, detention and otherwise, to the sum of $6,000; and the claimants respond by alleging no more than that they are the true and lawful owners of the said schooner *Ned*.

Held by the Court—That the pleadings are defective in every essential ingredient; that no triable question is presented for the consideration of the Court, and that no valid judgment will be rendered in the action.

For libelants, Messrs. Beebe, Dean and Donohue; for claimants, Mr. Ridgway.

COLLISION—COASTING LICENSE.

Mary S. Powell et al. vs. The propeller Freeman Rowdon.—This was a libel filed by the owners of the schooner to recover their damages occasioned by a collision. The schooner was coming from Wilmington to New-York. The collision occurred two miles S. E. by S. from Sandy Hook, about 10 P. M. The tide was ebb, and the wind from the

The answer, among other things, denied that the schooner was legally licensed for the coasting trade at the time, and averred she was engaged, not having the required proportion of American seamen on board.

Held by the Court—That this objection furnishes no defence. The right to remuneration for such a tort done to a vessel is no way derived from the property in the registry, but exists in the right of property in the vessel.

That on the pleadings and proofs the collision was caused by fault on the part of the propeller, and she is liable for damages.

Decree for libelants, with a reference to ascertain the damages.

For libelants, Mr. Ridgway; for claimants, Messrs. Beebe, Dean and Donohue.

SUPREME COURT—CIRCUIT—MARCH 18.

Before Justice Ingraham.

[illegible] *vs. Cornelius Coyle*—This is [illegible] this case. The suit is to recover a [illegible] of claims under a chattel mortgage [illegible] former owner Wild. The defendant [illegible] made a mortgage of the hearse [illegible], and that defendant holds the [illegible] prior mortgagee. On the former [illegible] could not agree. To-day they rendered [illegible] the plaintiff.

[illegible] plaintiff; L. A. Fuller, for defendant.

[illegible] *Manufacturing Company vs.* [illegible]—Motion for injunction denied with [illegible]

Robert B. Wild et al.—Default [illegible] on certain terms.

David H. Gould vs. L. B. Bryan.—Motion denied with $7 costs.

John Horsepool vs. Henry Davis et al.—Judgment for plaintiff.

William Gregory vs. Sarah Gregory, Executrix.—Order of reference to be settled.

COMMON PLEAS—TRIAL TERM.

Before Judge Brady.

Demarest vs. Darg.—In this case which was reported in yesterday's *Times*, the Judge this morning directed the jury to bring in a verdict for the defendant, which they accordingly did.

Mary Kirchoff vs. James C. Willett.—The defendant, while Sheriff, had an execution lodged in his hands against Mary Kirchoff's husband, which he levied on certain property, lager bier and casks, &c., in a store supposed to be that of the husband. The wife however claims that the property was hers, that the husband was only employed as bar-tender, and that he had no interest in the stock.

The case is not finished.

J. W. Martin for plaintiff; Brown, Hall and Vanderpoel for defendant.

Before Judge Daly.

Cohen vs. Martin.—In this case which was reported in yesterday's *Times*, the jury this morning returned a verdict of $50 for plaintiff.

Aaron Luby vs. Cornelius R. Garrison.—This action is brought to recover the value of two promissory notes, each for $7,500, dated Oct. 26, 1857, payable at ninety days. The defence is that they were accommodation notes, and that they were given as security for a usurious loan, of which consideration the plaintiff had notice. The facts were that Garrison, who was President of "The American Atlantic and Pacific Steam Canal Company," of the Republic of Nicaragua, made these two notes, and upon them as security, and in the name of the Company, he borrowed $15,000 of Messrs. W. H. Hays and E. H. Miller. He was to give, and he says he did give, interest on this loan at the rate of $260 on every $100, per year, and further that he gave 500 shares of the stock of the corporation.

The Jury have not yet rendered their verdict. Martin and Smith for plaintiff; J. T. Williams for defendant.

Sporting Matters.

As the twelfth of April approaches the interest in the great Billiard match between SEREETER, of Detroit, and PHELAN, of this City, increases. Both gentlemen are busily engaged in preparing for the contest. In Detroit, where SEREETER is known and PHELAN is not, except by reputation, there is perfect confidence that the former will carry off the stakes. In this City, where the reverse is true, there seems to be but little question that PHELAN will be successful. Firemen's Hall, in Detroit, is said to have been engaged for the match. It is a room sixty feet long and eighty wide, and is well lighted and ventilated. The price for tickets of admission has been fixed at five dollars. It is stated that the proceeds are to go to the Mount Vernon Fund. The amount of money staked on the contest is large, but as yet few odds have been offered on either side.

The weather becoming more settled, and the race-grounds in better order, the trotting prospects for the season begin to be talked of. At SNEDIKER's stables, on Long Island, are the Jersey stallion, under the charge of D. TALLMAN, SAMUEL MCLAUGHLIN's new trotter *Lancet*, *Belle of Portland* and *Ethan Allen*, whose performances the last season excited so much admiration. *Lancet* is offered to trot against anything, the best three in five, provided he can go under saddle, giving the same privilege to his competitor. *Lady Woodruff* is at SAM WOODRUFF's, at the Union Course. He offers to match her against anything that trots, at mile heats, to 250 lbs. wagons, for from $1,000 to $2,500 a side, best three in five. The prizes offered by Messrs. SHAW & WHITE, the proprietors of the course, are said to be liberal.

An act to incorporate "The Essex and Hudson Agricultural-Mechanical Association," under a very innocent name, reorganizes the racing course in New-Jersey. The seventh section of the act, which is as follows, sets forth the objects of the Association:

SEC. 7. *And be it enacted*, That the objects of said association shall be to improve the condition and breed of horses and cattle, and also to improve the agricultural, horticultural and manufacturing interests of the State; and for carrying out the objects of this act, said association may hold one or more meetings upon their grounds in each year, for the exhibition of such animals, and of such agricultural and other articles, as the directors, or a majority of them may deem proper, and may at such meetings and exhibitions, test the speed and other desirable qualities of horses, mules and other stock, and may offer and give such premiums as a majority of the directors may agree upon for superiority in the objects sought for, such premiums, however, not to exceed the surplus net revenue of the association in any one fiscal year; and said association shall have power to let, rent or lease unto any agricultural or other society organized for the purposes contemplated in this act, the grounds and improvements belonging to said association.

Where the Course will be located is not definitely determined. Two places are spoken of, one in the vicinity of Newark and the other four miles back of Hoboken. The former location meets with the most favor.

Abroad, Mr. TEN BROECK is striving to maintain the honor of American horse flesh, despite his reverses of last year. He thinks that *Prioress'* chances for the Chester Cup are not all gone, but his English antagonists treat his aspirations lightly.

As soon as the waters are free from ice and when the breezes become a trifle warmer, the river will swarm with racing boats. Large numbers of boats are being built in this City and in Brooklyn. A month ago delegates from the different colleges met at Providence, and made arrangements for the Union Regatta which is to occur Friday, July 22. The place is not yet determined. It is to be hoped no such sad casualty as that which last year marred the festivities of the occasion, may intervene the present season.

Of the proceedings of the ball clubs note has already been made.

PERSONAL.

Mr. Thackeray has been visiting Harrow for the purpose of delivering a lecture before the school on "The Court and Times of George the Third." The whole school was present, together with a select party of visitors, who filled every vacant corner of the speech-room. Mr. Thackeray was enthusiastically cheered before and after his lecture, which was listened to with admiring attention by an audience of more than 500. Mr. Thackeray is the lineal descendant of a former head master of Harrow, Dr. Thackeray, who presided over the school from 1740 to 1760.

It is stated (says the *Patrie*) that on the day on which the marriage of young M. de Rothschild took place with Mlle. d'Anspach, Baron James presented his daughter-in-law with a small pocket-book covered with crimson velvet. On the young lady opening it she found inside an inscription of rente of 50,000f. "That sum," said the Baron, "is quite independent of the allowance which your husband will give you each year for your toilette and private expenses. This sum will serve for your charities, fancies or any use you choose to make of it."

The Rev. Dr. Hook, the dean elect of Chichester, has held the vicarage of Leeds for a period of nearly 22 years. The appointment to the vicarage is vested in 23 Trustees, and 16 of that number voted for Dr. Hook in 1837, no other candidate receiving more than five or six votes. He was then 39 years of age. The selection made by the Trustees was generally unpopular at the time, on account of Dr. Hook's High Church principles.

The *Nation*—orthodox authority—announces that the rumor in the *Times* of Dr. Cullen's elevation to the College of Cardinals is correct. The only obstacle to the most reverend prelate's accession to this dignity has been for some time his great reluctance to accept it. He is to remain at Rome—where he ought always to have been—and be attached to the Propaganda.

Great uncertainty prevails respecting the health of the King of Naples. No bulletins have appeared in the Neapolitan papers, Ministers being studious to conceal his illness. Private accounts, however, from some of his attendants, which can be relied upon, state that his legs are much swollen, that he is extremely feeble, and is in much greater danger than is generally supposed.

The marriage of Lady Elizabeth Lefevre, daughter of Viscount Eversley, late Speaker of the House of Commons, with Captain Mildmay, R. N., nephew of Sir Henry Mildmay, was celebrated Feb. 22, at St. George's Church, Hanover-square. The newly-married pair afterwards left for the seat of Samuel Whitbread, Esq., Purfleet, Kent.

Mr. C. B. Norton, of this City, will soon sail for Europe, to purchase rare and valuable books for American Colleges. He will occupy the Summer in making selections, and the large amount of the orders he carries out enables him to perform his business with signal advantage to the Institutions employing him.

A letter from Mr. Sumner, communicated to Dwight's *Journal of Music*, states that that gentleman has followed with great fidelity the prescribed medical treatment, that he is dry-cupped half an hour every morning, and that he is gradually mending, and intends to be in his seat in the Senate in December next.

Mr. Spurgeon has been preaching in Edinburgh. The *Courant* says that "the parties to whom the citizens of Edinburg are indebted for the present opportunity of hearing and seeing this London preacher have every cause to congratulate themselves on the success of the speculation."

Mr. J. L. Hewett, of Ohio, publishes a card in the Cleveland *Herald*, denying that he was ever concerned with State Treasurer Breslin in peculations upon the Treasury. He feels aggrieved at the use made of his name in the report of the Legislative Investigating Committee.

Several of the journals having copied a paragraph stating that an old servant of Mlle. Déjazet had just died, and bequeathed her a sum of 200,000f., the actress has written to the press to contradict the statement, declaring that it must be classed under the category of *canards*.

Among the approaching marriages announced in the fashionable world is that of the Princess Poniatowska, grandniece of the famous Marshal who perished in the Elster, near Leipsic, with Viscount de Monternal, of a Languedoc family, and whose mother was niece of Marshal Ney.

Mr. Samuel Warren, Q. C., has been sworn in a Master in Lunacy before the Lord Chancellor, in succession to Mr. Higgins, who vacated the office in deference to the opinion expressed in Parliament of his unfitness to discharge its duties.

The first wife of Jerome Bonaparte was born at Bongarra, in the county of Donegal, about nine miles from Letterkenny, and went out at a very early age with her father, who was a very respectable farmer in that county, and settled in Baltimore.

The Rev. Dr. Tyng has quite recovered. He has commenced a series of Sunday afternoon sermons on the characters of Mary and Martha, in which he differs considerably from the opinions of the standard Bible commentators.

The Rev. Dr. Randall, of Boston, has received from his parishioners the satisfactory testimonial of a purse of gold and a service of silver: a dressing gown and a pair of worked slippers being added thereto by the young people of his Sunday School.

Mrs. Porterfield Farley, of Jefferson County, La., has brought suit for $30,000 damages against the owners of the steamer *Eclipse*, for injury received by the explosion that occurred on her some four months since.

The Earl of Granville, who has been prevented by an attack of gout from attending to his parliamentary duties, is now nearly recovered. His lordship is expected to resume his duties in the House of Lords at once.

Vendetta, the Roman brigand who stole the Madonna at Velletri, is to be executed with six others on the spot. This sudden doom has come upon him because the mail was stopped and robbed last week near that town. The peasantry meditate a rescue.

We (*Post*) are very glad to learn that the Duke of Buckingham has rallied from his recent severe indisposition. It is hoped his grace will shortly be able to remove to London from Scotland, where he is at present staying.

Dr. Cole, of California, whose strictures on the general health of women in that State raised so great a hubbub recently, has been acquitted by the State Medical Society of all foul intentions.

Miss Atherton, of Kersall Castle, near Manchester, (a descendant of the well-known Dr. Byrom,) has made a donation of £5,000 to the Manchester Ragged and Industrial Schools.

NEW YORK, Friday, March 18, 1859—6 P. M.

The reported receipts of the principal kinds of Produce since our last have been: 26 bbls. Ashes, 701 bbls. Flour, 2,036 pkgs. Corn Meal; 12,300 bushels Corn; 2,300 bushels Rye; 2,660 bushels Oats; 579 pkgs. Provisions; and 31 bbls. Whisky.

COFFEE—Sales, to-day, were confined to 50 bags Java, at 53c.; 15 bags Maracaibo, on private terms, and 30 bags choice St. Domingo, at 10c. ℘ lb.

COTTON—Has been in good request, at firmer, though not quotably higher prices. Sales 3,500 bales, chiefly in transitu. We quote lots here thus:

DRY GOODS—The market for nearly all kinds of desirable fabrics continues very firm, with moderate supplies, especially of choice Domestic Cottons, available. The prevalent inquiry, however, is not brisk, as the demand from country buyers has not improved materially within the week. The Northern and Western trade will soon commence to purchase freely, as the mild weather and early resumption of navigation in the interior favors such a revival of business. The auction sales, to-day, as throughout the week, were successful, where the goods offered were really attractive. The value of the imports of Foreign Dry Goods, during the week, have been $725,796, against $642,412 same week in 1858, and $1,657,500 same week in 1857. The amount of Foreign Dry Goods, marketed during the week, has been $788,924, against $1,035,479 the corresponding week last year, and $1,671,372 the corresponding week in 1857. The current sales from first hands are not as satisfactory as those being effected by the principal jobbers, who continue to report a comparatively brisk business.

FISH—Dry Cod are in pretty fair demand, chiefly at $3 75@$4 30 ℘ cwt. Other kinds are in limited request, at previous quotations.

FLOUR AND MEAL—The market is quiet to-day, for State and Western Flour. The regular inquiry is moderate. Some demand exists for shipment, chiefly to the West Indies; as also on speculation. The prices buyers offer, however, do not satisfy holders. Hence, in part, the inactivity. The stormy weather likewise has had the effect of checking operations. The changes in prices have not been important; sales 7,000 bbls. within our former range.

Southern Flour is in very good demand at unaltered quotations; sales 4,000 bbls. in lots, at $6 25@$6 75 for mixed and straight brands; and $6 80@$8 75 for low fancy to choice extra brands, ℘ bbl. Canadian is quiet and depressed at $6 50@$7 30 for extra brands ℘ bbl. Rye Flour is inactive at $3 65@$4 25 for fine to superfine ℘ bbl. Corn Meal is in request at former rates, $3 75@$3 85 for Jersey; $4 30@$4 40 for Brandywine, ℘ bbl.; and $19 50@$20 for the latter, in puncheons.

FOREIGN LIQUORS—Are in moderate request at former prices.

GRAIN—Wheat is inactive, to-day. Desirable lots are offered sparingly and at prices above the views of the principal purchasers. Hence, business is restricted. We have heard of no important sales, since our last. Corn is more plenty, and though in fair request, it is heavy and lower; sales have been reported, to-day, of 45,000 bushels at 87c.@90c. for inferior to good new white Southern; 90c. for good new yellow Southern; 86c.@90c. (nominally) for poor to good new white and yellow Jersey; and 88c. for ordinary old mixed Western, ℘ bushel. Rye is in demand, and is quoted at from 90c.@95c., ℘ bushel,—with sales of small lots, mainly within the range. Barley is worth 65c.@85c. for inferior to prime, ℘ bushel. The inquiry for it is not brisk, to-day. Oats are quiet at former rates. Canadian, 61c.@63c.; Western, 60c.@62½c.; State, 56c.@58c.; Jersey and Pennsylvania, 51c.@55c.; and Southern at 48c.@54c., ℘ bushel.

Mr. WM. G. CUTTING notices the week's business in Breadstuffs thus: "The market for State and Western Flour has been quite active during the week. The demand has been good from the Eastern and local trade, with a fair speculative inquiry. Within the past two or three days a slight decline has taken place on inferior brands, whilst medium and good grades have been in better request, with an upward tendency in prices. Yesterday's transactions were to a moderate extent, the market closing steady. Southern Flour has been in better request at uniform rates. Canadian Flour has been less sought after, and prices have declined. Rye Flour remains unchanged. Corn Meal has been in better demand at a slight advance. The Wheat market has continued firm, with a good demand both from the local trade and for home miller's use. A fair speculative inquiry has also prevailed for desirable lots, which remain scarce and readily command full prices. Holders are still confident that higher prices will prevail before another harvest, and maintain that any considerable reaction is hardly possible. The transactions yesterday, in consequence of the severe storm, were very limited. Rye continues without material change. New Southern and Jersey Yellow Corn has been more active, and prices have advanced, whilst Western Mixed remains unchanged and quiet. Oats, with a large supply and a limited demand, have ruled dull. Barley is offered freely, good and prime lots are in fair demand, whilst common and medium qualities are dull and heavy."

HAY—Sales 450 bales North River, chiefly at 70c.@75c. ℘ 100 lbs.

HIDES—The receipts have been unusually heavy this week, amounting to 80,000 from foreign and 17,000 from coastwise ports. The trade have operated very sparingly, and prices have declined about ½c. ℘ lb. Importers do not offer their receipts freely. The principal sales have been: 6,000 Dry Rio Grande at 27c.; 1,800 Dry Buenos Ayres at 28c.; 2,000 Dry Buenos Ayres, in bond, at 28c.; 2,300 Dry California at 25c.; 1,900 Dry Salted Bahia, to arrive, at 30c.@18c., all 6 months.

IRON—Is in very moderate demand at former rates.

LEATHER—The demand for Sole has been fair, and as stock has been very light, prices are fair. The week's movements were as follows:

	SOLE.	
	Hemlock.	Oak.
Receipts, sides	46,600	5,100
Sales, sides	54,100	6,600

NAVAL STORES—The movements to-day have been restricted; prices have not varied remarkably.

OILS—No important changes have occurred in this line.

PROVISIONS—Pork has been purchased to the extent of 1,250 bbls., in lots, at $18 37@$18 50 for New Mess; $17 87½@$18 for Old Mess; $21 for Clear; and $13 20@$13 30 for Prime ℘ bbl. Beef is moderately inquired for, at buoyant prices; sales to-day, 400 bbls., in lots, at $9@$9 50 for repacked Western Mess; $12 50@$13 for extra do.; $8 50@$9 62½ for Country Mess; $6 75@$7 50 for do. THE MINISTER'S WOOING,
BY HARRIET BEECHER STOWE.

This serial, begun in the December number of the ATLANTIC, has been received with universal favor, and bids fair to become the greatest work of the gifted novelist. The field is new; for the New-England of the last century is far away from the New-England of to-day; and the pages of the story already published show how completely the author has entered into the quaint and simple life of that almost forgotten period. Her portraitures of characters are full of spirit—equally remarkable in their firm outlines and in the minute touches which none but the hand of genius can give. THE MINISTER'S WOOING will be continued through the year.

The pages of the ATLANTIC are stereotyped, and back numbers can be supplied.

TERMS—Three Dollars per annum, or twenty-five cents a number. Upon the receipt of the subscription price, the Publishers will mail the work to any part of the United States, prepaid. Subscriptions may begin with either the first or any subsequent number.

The postage of the ATLANTIC is 36 cents a year, prepaid.

CLUBS.—For Ten Dollars the Publishers will send five copies of the ATLANTIC for one year, the subscribers to pay their own postage.

Clergymen, Teachers and Postmasters will receive the work for Two Dollars a year.

Booksellers and Newsmen will obtain the terms by the hundred, &c., upon application to the publishers.

HYATT'S PATENT LIGHTS.
A CARD HAVING BEEN ISSUED
TO THE PUBLIC
By parties who frankly confess that they do not pay me for my invention, I avail myself of this opportunity to advertise the names of those who do. The following persons, only, are licensed under my patents in this City:
George R. Jackson & Co.
J. B. & W. W. Cornell & Co.

The law is, that a person who purchases or uses a patented article is equally liable for infringement with the maker of it. The "makers" having fairly notified the "users" of their intention not to pay, the "users" have only themselves to blame if I collect my tariff of them—as I shall certainly do. THADDEUS HYATT.

NEWS OF THE DAY.

The screw steamship *Weser*, of the Bremen line, having touched at Cork, brings us European advices to the 6th inst. Further changes had taken place in the British ministry; while others, indicating the withdrawal of the Lord Chancellor, and of the Colonial Secretary were confidently announced as on the eve of occurrence. The government measure of reform had not grown in popularity since the previous intelligence. The impression appears to be that the bill will not obtain a second reading; while some predict a ministerial resignation as the immediate result. In reference to the war question, the news is of a more tranquilizing character. Rentes and Consols had both advanced. One cause of this improvement was an official denial in the *Moniteur* that the French Army was to be placed on a war footing; the obvious indisposition of the French people to embark in the war, and rumors of the immediate withdrawal of the French and Austrian forces from the Roman States. Lord COWLEY'S intervention at Vienna was also regarded with more hopefulness. On the other hand there was no notable abatement of French preparations for a campaign, while the Austrian Army in Italy is avowedly placed upon a war footing. The Emperor of Austria, it is represented, is eager for the conflict, and is warmly sustained not only by the population of Vienna, but of all Germany. Prussia, in the event of an outbreak, will preserve neutrality, while the Southern States of the Germanic Confederation will doubtless take the field with Austria. The intelligence from India, China and Australia is later, but unimportant.

Later advices received by the *Quaker City* put a different face upon Mexican affairs. We now have the statement, that MIRAMON had not been beaten as previously reported, but that the mishap had befallen a detachment thrown out by him in the direction of Jalapa. With his main body, he is said to have proceeded on his march toward Vera Cruz, at whose gates the latest rumor leaves him, with a numerous army, and a heavy battery.

Mr. MATHER, yesterday, in the State Senate made several attempts to have the protest of the minority in the Mandeville case entertained, but he did not succeed. The Registry Law bill was received from the Assembly, and made the special order for Monday evening. All bills relating to Temperance matters were made the special order for Friday evening. A motion was made to refer Mr. WETMORE'S claim to Mr. MANDEVILLE'S seat to the Committee on Privileges and Elections, but before the question was taken, the Canal Appropriation bill came up as the special order. In the Assembly, it was voted to constitute a Committee of nine to prepare bills for the consideration of the House—commonly known as a "Grinding Committee." The New-York Tax Levy was reported favorably, and was referred to the first Committee of the Whole. A report was read from the Special Committee on Unclaimed Deposits in Savings Banks, accompanied by a bill providing for their future disposition. The question of the removal of Quarantine was considered in evening session, the debate being on the bill introduced as a substitute by Dr. TUTHILL, which was finally rejected, and the original bill was ordered to a third reading.

The Secretary of War some time since appointed a Board of Army Officers to inquire into the best means of reducing the expenses of the Department. That Board have made their report, and the Secretary now has it under consideration. They recommend the concentration of the troops as much as possible into large garrisons, near navigable waters and in the vicinity of settlements, with a view to the reduction of transportation, which is an enormous item under the present system, and thus reducing the price of supplies. The concentration of troops would also reduce the number of animals required. The posts abandoned the Board recommend to be sold to the highest bidder in Washington.

The Railroad Convention which has been in session for several days at Buffalo, adjourned yesterday, without having been able to agree upon a time-table. Another Convention of those interested in the time of starting from this City, was held in the afternoon, at which it was resolved that the time should be at 6 and 11 o'clock A. M. and 5 o'clock P. M., running to Chicago in Thirty-six hours, and to Cincinnati in thirty-five. An independent Convention, representing the Southern, Western and Southwestern interests, is to be held at Columbus, Ohio, next Wednesday. The understanding is, that the St. Nicholas Hotel compact is to be broken, as the representatives of the Erie road announced the intention of that Company to withdraw.

A test vote in respect to Mr. Inspector-General GALT'S new Tariff bill was taken in the lower House of the Canadian Parliament, on Thursday night. The result was a virtual triumph of the measure by a majority of thirteen. It was upon a proposed substitute by Mr. BUCHANAN, of Hamilton, that the question occurred. Mr. BUCHANAN'S proposition was looked upon in the light of a no-confidence motion. The bill will now pass the House of Assembly beyond doubt, and in the Legislative Council its adoption has not been questioned. The new tariff is for the purpose of replenishing the Colonial Treasury, and as might be expected, its alterations are chiefly on the upward scale. It meets the warm opposition of the commercial community.

The inquest in the case of MIKE WALSH was resumed at the Sixteenth Ward Station-house yesterday morning, by Coroner O'KEEFE. Among the witnesses examined were TOM HYER and GEORGE WILKES, who were with the deceased till a late hour on the night of his death. Two witnesses testified to noises that they had heard near the place where the body was found, seeming to indicate that Mr. WALSH was attacked. The verdict ascribes his death to apoplexy, produced by being precipitated into the area where he was found, and expresses the opinion that violence was resorted to by some person or persons unknown. Circumstances strongly indicate that he was murdered and robbed of his gold watch, a present to him from GEORGE STEERS.

The Whig General Committee held a meeting last evening at Thorp's Hotel, at which a permanent Executive Committee was appointed. The Committee on their adjournment called on Ex-Governor HUNT and the Hon. WALTER PRESTON, of Virginia. There is to be a formal reception of these gentlemen at an early day, and an address by both of them, to such Whigs as may be

A posse of the Detective Police under command of Sergeant DICKSON, were yesterday sent to Hastings to assist in quelling an anticipated riot at the marble quarry at that place. A large number of men have been employed in getting out marble for shipment to New-Orleans and Charleston, to be used in building the new Custom-houses in those cities. Owing to a failure in receiving expected appropriations, the contractor, a few days ago, discharged a number of his men, and being about to discharge more, apprehended serious difficulty.

A man giving the name of ARLINGTON, was brought to this City yesterday from Boston, in custody, charged with committing the recent forgery upon the firm of PAUL & HINTON, in Petersburg, Va. He is held for examination. The amount of the forged check was $4,100.

The market was somewhat firmer yesterday for Cotton, of which 3,500 bales were sold. Flour and Wheat were quiet. Corn was more freely offered and purchased, at, however, lower prices. The movements in Provisions, Coffee, Rice, Naval Stores and Oils, were restricted. Sugars were in fair demand at full rates. The auction sale of Teas was decidedly successful. Hides were plenty and heavy. A moderate inquiry prevailed for Sole Leather. Tobacco was salable and firm. Freights were quiet.

Our Irish Fellow-Citizens.

ST. PATRICK, of whom we are told, on the best legendary authority, that he not only "came of decent people" in point of origin, but was himself a "gentleman" in point of character, must have smiled approval upon the style in which the people of his protection have just celebrated his festival-day in this good City of New-York. Our Irish friends will not, we trust, suspect us of any concealed disrespect to the memory of BRIAN BOROIHME when we say that the thought of St. Patrick's Day had gradually come to be associated in the minds of quiet people with visions of wordy warfare and uproarious whisky-drinking; and that few men ever hoped to hear from the orators of a St. Patrick's dinner anything but denunciations of "perfidious Albion," shouts of vengeance, and that general clamor of an oppressed nationality which breaks with such a peculiarly startling effect upon the ears of mankind over the prosperous expanse of a well-filled dinner-table, and in the stimulating atmosphere of the bannered and blazing banquet hall. Victims flown with claret and champagne, martyrs gorged with turtle and terrapin, had accustomed us to expect a sort of premature Fourth of July with each recurrence of the 17th of March. We looked for the same noise, the same nonsense, the same fervid ferocity of phrase, the same recklessness of logic, with the single difference that while the Fourth of July belongs to us, the 17th of March, being the high day and holiday of another race and nation, could not fail to be regarded, in the established fashion of the celebrations, as much the vaster and more obnoxious bore of the two.

The "Friendly Sons of St. Patrick" have given us a surprise and a pleasure, where we looked for a tedious nuisance; and the report of the proceedings of their meeting on Thursday deserves the special notice as well of Irishmen as of Americans, for the signs it gives of better views and sounder purposes on the part of those who planned and carried out the ceremonial of the occasion.

The very weather seemed to sympathize with the new spirit that pervaded the scene, and instead of the showery malediction heretofore so commonly bestowed upon the emerald lines of the Hibernian procession, a soft sunlight followed them throughout the day, and a tranquil evening closed upon their orderly dispersion. There were no rival parades, no factious festivities, symbolizing too well the unhappy distractions and feuds which, more than all other causes combined, have delayed the development of true liberty among Irishmen at home, and have retarded their harmonious amalgamation with the great masses of the people in this country. And when, after listening to the story of the great deeds of the Saint whom they had assembled to honor, from the lips of an Irish Bishop of what is still the Irish Church *de facto* if not *de jure*, the sons of ST. PATRICK met at the Metropolitan Hotel to dine each other into patriotic enthusiasm,—they heard from the distinguished President of their Association a speech, the reverse of all that Tipperary and Buncombe have been wont to hear—a speech so full of practical good sense, of high-minded and honorable love of country, of justice, moderation and magnanimity, that we are fain to regard it as the omen and augury of a wiser and therefore of a more quiet and more fortunate future for Irishmen everywhere, and especially for Irishmen as well as Americans in this chosen land of the Irish Exodus.

In one special feature of national character there has always been a strong family resemblance between the people of Ireland and ourselves of America. We have neither of us been able to bear with severity of criticism; we have both of us been prone to imagine an insult in every difference of opinion, an affront in every difference of taste elicited by our manners or our customs from the foreign observer. Doubtless the peculiarity may be traced in both cases to a common origin. Ireland, as well as America, long occupied a position of political inferiority in the presence of a people not intrinsically superior; and Irishmen, like Americans, were constantly stung by the consciousness that the part played by themselves and their nation in the world was not duly recognized in all its importance. For America all this is changing: has changed indeed, and virtually passed away. Your true, thin-skinned American, who, after reading MARRYATT or TROLLOPE, would like to edit the author with a bowie-knife, must be sought for in the "provinces." Ireland has but just begun to advance toward the like salutary stage in her history. As Mr. RICHARD O'GORMAN, in his excellent speech of Thursday, very admirably expressed it:

> "Like some neglected family, dwelling in a spot remote and secluded from society, Ireland had grown slipshod and slatternly, content to lounge through life—careless of the Present, hopeless of the Future—intent only on trifles or follies, or worse—on wretched quarrels about nothing, in which victory and defeat were alike disgraceful."

But of this condition sprang up swarms of petty animosities, of stupid prejudices, all the evil qualities in short which make faction permanent and nationality impossible. Hence came the Ribbonism, the Orangeism, the White-Boyism, and all the other isms equally foolish and ferocious, which for years impeded the civilization of Ireland, and fought the battle of that small party which wished to oppress her, by forcing all the respectability and decency of the Empire of which she is a member, to sustain the hands of any Government strong enough to suppress such excesses of selfishness and anarchical passion. Hence, too, on this side of the Atlantic, the Irish leagues instigating other leagues; the inconsiderate and intemperate demonstrations of Irish partisanship provoking the un-American combinations of Know-Nothingism. Hence, in a word, the most serious misfortunes of Ireland and of her children throughout this century of progress and of liberal development. Mr. O'GORMAN tells the truth in this matter plainly to his fellow-countrymen—plainly but with feeling, honestly and yet tenderly. He tells them, too, that there are lights of promise on the sky; that enterprise, industry, good sense are fast doing a work of real regeneration for Ireland, which all the green-waistcoats and pass-words and howls upon the Saxon in the world could never so much as begin. No man who has watched the history of Ireland since that fearful trial of 1847, can fail to see that Mr. O'GORMAN is in the right. From a state of prostration so abject that the very peasants of Bohemia could look down in pity upon her, Ireland, under the benign influence of wholesome laws and popular self-restraint, has sprung forward so fast, and so far, that there are States of this Union which may legitimately envy her the actual movement of her agriculture, the progressive prosperity of her people. The same things which make Ireland live afresh and thrive, will make Irishmen everywhere true and valuable citizens of whatever land they may adopt as their home. If our Irish friends would have the St. Patrick's Day of 1860 a model and type of all succeeding celebrations, they have only to give effect to the eloquent invocation of Mr. O'GORMAN.

> "Let there be peace in Ireland and among Irishmen, peace; not the torpor of abject submission, not the stagnation of manly thought, but a healthy repose, an honorable peace—peace between race and race, and class and class, and sect and sect; peace between the government and the governed, between the castle and the cottage, the rich and the poor; peace, that all mindful of the errors, the passions, the follies, the crimes of the past, may learn at last to repent, to forgive, to forget, to amend. Let those who talk of their rights not forget their duties. Let all remember that a nation is a living thing—that one class cannot pine under wrong—nay, that the finger of injustice cannot be laid on one man without a wound to the honor, the health, and the safety of the whole."

City Journalism.

The *Churchman* states that a project is on foot for the "establishment in this City of a new daily paper, to be conducted on strictly religious principles." The *Churchman* says that if those engaged in it will make it "a support of the true Catholic Church," they may obviate the necessity of carrying out the project of starting a new daily, which the *Churchman* itself has long entertained; but if they make it "a fresh auxiliary to schism," that project will forthwith be carried into effect.

As we do not understand what is meant by having a paper conducted on strictly religious principles,—or to what extent and in what way this is expected to modify its character,—it is not easy to form an opinion as to the probability of its success. The conductors of at least some of the daily journals already established undoubtedly endeavor to do what the new paper proposes to accomplish,—and there are few among them, we presume, who would not very gladly do still more in the same direction. It is eminently desirable that so great a power as that of journalism should be wielded in the interest of Christian morals, and under a constant sense of the responsibility which religious obligation involves. That the daily journals of this City have improved immensely in this respect within the last ten years, as well as in enterprise, ability and general courtesy, no one who has given the subject any attention can doubt;—and it is equally certain that, with the improved taste and increased culture of the mass of the people, this improvement will continue. The daily Press may not be all it should be,—but the same defect characterizes every other profession and every other human institution. All we can reasonably expect or ask is that its tendencies should be in the right direction,—that it should be growing better, instead of worse; and we think this may be very safely and very confidently asserted of the daily Press of this City, taken as a whole. In all the respectable journals due regard is uniformly paid to the religious observances and feelings of all denominations,—a fair proportion of space is given to religious intelligence,—the obligations of Christian duty are fully recognized, even if not always fully met, and in their discussions of public affairs Christian morality is almost uniformly accepted as the basis of their judgments and opinions. We believe this to be true of a large portion of the daily newspapers of this City,—and it is becoming more and more true of them all.

Exception is taken, we are aware, to the character of much of the intelligence that is published,—to the details given of murders, police cases, divorce trials, &c. In part this complaint is doubtless just,—and there is room and need for improvement in nearly all our newspapers in this respect. But it is not fair to overlook the reason of this fault, nor to place the responsibility of it too exclusively upon the Press. It belongs mainly to the community. A newspaper must be published upon business principles; it can only exist as it is sustained by the community. It is very easy to sneer at a publisher for seeking primarily to increase his circulation; but it would be just as sensible to sneer at a merchant for endeavoring to extend his trade, or at a physician for seeking to enlarge his practice. The public support is absolutely essential to a newspaper, unless for party or other purposes of their own, individuals are willing to contribute the money which it requires; and in that case it becomes a missionary work instead of a business operation. Now, it is a clear and undeniable fact, that the great body of the people want a newspaper *for the news*. They want to know what is going on in the world, and it is the business of their newspaper to tell them. If it does they will take it; if not, they will stop it and take another. And lamentable as the fact is, it nevertheless *is* a fact, that crime, in its various forms and successive stages, fills a very large page in the daily history of the world,—and cannot be ignored without ignoring a very large and a very important part of the current intelligence. Equally true is it that nine persons out of ten in every community read the narratives of great crimes with much more avidity than they read accounts of benevolent and religious movements, or any of the more ordinary and less exciting incidents of daily life. The tragic element, in life as in fiction, has a strong hold upon the imagination, and very few persons, whatever their moral and religious character, are insensible to its fascination. It is because the great mass of the community demand and will have reports of the crimes that occur, and of the trials of the criminals concerned, that newspapers persist in giving them. That, in the discharge of this necessary function of journalism, they sometimes go too far, and pander to a morbid taste,—and even discard the requirements of decency, and print things utterly unfit to be read, is probably true:—and the respectable portion of the community should reform this abuse by frowning upon and punishing it wherever it exists. The reading public has duties to perform in this direction to which it is not always as sensitive as to the derelictions of Journalists. They should encourage and support *the best* newspapers, as against the worst, if they wish to make them better.

There is undoubtedly a large class of persons who care less for the movements of the day and the occurrences of actual life, than for the principles and observances of religion. They desire a newspaper from which reports of crimes shall be excluded, and in which the interests of religious churches and other organizations shall have the leading place. There is no reason why they should not establish such a paper, and there is a fair probability that with judicious business management it might be made reasonably successful. But they can scarcely fall into the mistake of expecting to supersede by such a paper the worst of those to which they take exception, or to diminish their influence upon the public mind. If they were to succeed in enlisting all the religious interest of the City in their own paper, they would only withdraw it from the others, and throw them still more openly and exclusively upon that vitiated public taste which they regard as already too influential in the Journalism of the day. They might secure for themselves the luxury of reading a paper free from everything injurious or repulsive,—but they could do more effective good by increasing their interest and their influence over the journals which will continue to furnish most of their reading to the mass of the community.

How we Treat our Judges.

Yesterday morning the court-room of the Common Pleas was deluged by rain. Spittoons had to be placed here and there over the carpet to catch the droppings from the ceilings, and business had to be carried on very much as if the Judge was seated on a hill-top, or a cromlech after the fashion of our ancestors, instead of in a modern hall of justice, in the midst of a wealthy metropolis. The exterior of the City Hall is in perfect keeping with the interior. It has no roof, no cupola, and the windows of the upper story are boarded up with plain, unplaned deal planks. Within twenty yards of this imposing structure the judges of another court are endeavoring to perform their duties in rooms in which no hotel-keeper who desired to have the reputation of keeping a first-class house, would put more than one lodger at a time; breathing a fœtid atmosphere, which owing to the lowness of the ceilings cannot be purified, and, moreover, in imminent danger of being precipitated into the story below, along with the jury, the counsel and the audience, by the breaking down of the floor.

It would be hard, on the whole, to imagine a state of things better calculated to express the utter contempt in which our governing bodies hold the law and its officers. If the City government wished to impress upon the minds of the world the impatience with which Americans suffer even the forms of justice to be exhibited, they could not choose a better mode of doing it. After having stripped the Judiciary of its independence, making the tenure of office uncertain, and the salary precarious, and bringing it in direct contact with the mob, we might, at least, treat its members with the outward marks of respect, and if we despised them, at least hide it. If, for no other reason, for the sake of our own lives and property, we ought to behave decently towards those whose labors and learning hedge them round with security. If we were all masters of wits, erudite cynics, whose trained vision never rested on the outward signs of things, but penetrated at once to the spirits, it might possibly answer all the purposes of society to have justice administered in a barn, or on the stoop of a hotel, by a judicially-minded umbrella peddler, or an enlightened stevedore in his shirt-sleeves. But, unhappily, the mass of us have not yet reached such a pitch of cultivation and refinement. There is still a connection in our eyes between substance and show—between the accidents and incidents of a thing and the thing itself. The majority of us have not been educated up to a complete contempt for externals; and we have amongst us a large class of foreigners—the class which unhappily produces most of our criminals—who have always been accustomed to associate power and dignity and wisdom with external pomp and pride and circumstance. It is of the last importance that some small amount of respect should be paid in this matter to the prejudices of this large, ignorant and uncultivated body of our fellow-citizens. Even if we ourselves have arrived at that pitch of political perfection in which a judge takes the same rank in the estimation of enlightened men as a hackman, or a groggery keeper, we ought not to forget that our brethren from the other side of the water are still buried in heathenish superstition on this point. They will not respect Courts which have no shelter from the rain, and which are in constant dread of breaking down through the floor, and which are compelled to call the calendar of a great judicial district in a moderate-sized bedroom, poisoned by the exhalation of a numerous and able Bar, and of a large and patriotic jury panel. It is impossible to expect an Irish or German peasant to revere a judge on whose cranium he perceives a stream of water steadily descending from a leak in the roof with the sanction and connivance of the Executive, and he is, unhappily, too apt to associate the law with those who expound it and divide his contempt pretty equally between them.

We wish we could say that, let their physical condition be ever so abject, our Judges at least preserved their moral dignity intact, and that nothing in their conduct was calculated to bring their office into contempt. But even this melancholy satisfaction has not been left us. We have only to enter the room in which a Judge of the Supreme Court is to-day trying a man for his life, to have any pleasing little delusions with which we may have been comforting ourselves on this point, painfully dissipated. Any one who has seen Judge ROOSEVELT sit calm, meek and unmoved while the counsel practising before him in the Stephens case heap on him every insult and indignity which reckless and well-paid ingenuity can suggest, knows too well that our roofless City Hall and boarded windows are in perfect keeping with the moral wreck and dilapidation which is to be witnessed beneath and around. When a Judge has so little respect for the State, for the public, for his office, for his colleagues, for the honorable profession to which he belongs, as to allow counsel to assail him day after day with ribald abuse, with every possible variety of insolence—of tone, of gesture and of language—not only without punishment but without rebuke; and to turn the Court into an arena for the exchange of billingsgate among one another, we must all feel that it is no matter how soon a Common Councilman is sent up to make a hole in the roof of the Supreme Court, and let the rain in there as well as in the City Hall.

PASSAGE OF THE REGISTRY BILL IN THE ASSEMBLY.—The so-called, but mis-called, Registry bill passed the Assembly on Wednesday. It is so framed as to omit altogether the essential principle of a Registry—to wit, the requirement of previous registration in order to voting. The only safeguard it provides, in addition to those already existing, is, that a person challenged must back his own oath with that of another voter. If he can do this, his ballot must be received, whether registered or not.

There is, indeed, a requirement that the Inspectors of Election shall meet three weeks, and again one week before election, to make out a list. All who choose may apply to have their names placed thereon, and the Inspectors may record such names as they think fit. But at the polls, any one who can get a voter to back him can swear in his vote as heretofore. Those who "vote early and often" will henceforth be compelled to "divide" with their backers. An annoyance to be sure, but it by no means spoils the business.

DEMOCRATIC STATE CONVENTION AT HARRISBURG.—The Democrats of Pennsylvania held a Convention on Wednesday, partly to nominate candidates for Auditor-General and Surveyor-General, but chiefly to "support the Administration." Both objects were accomplished. RICHARDSON L. WRIGHT, of Philadelphia, was named for Auditor; and JOHN ROWE, of Franklin, for Surveyor. When this was done then came the heavy work. Though the body was not entirely harmonious, a string of resolutions were put through without much difficulty. BUCHANAN was indorsed, Cuba coveted, Paraguay 'defended," a Pacific railway "commended," incidental protection for iron and coal "advocated," and lastly (don't laugh) "unnecessary expenditure" denounced. One of the resolutions throws out, as a precious piece of bunkum, the idea of a State Sub-Treasury. Of course nothing of the kind is meant. It is some time since President VAN BUREN established a Sub-Treasury for the General Government. And we have yet to see the first Democratic State follow the example. We enjoy a serene conviction that the "coal and iron" Commonwealth is not destined to break the ice.

CITY INTELLIGENCE.

THE RECENT FORGERIES IN VIRGINIA—ARREST OF THE SUPPOSED FORGER IN THIS CITY.—A letter from the correspondent of the TIMES, in Petersburg, has recently given the particulars of a bold forgery committed on Messrs. PAUL & HINTON, brokers of that city; the forged check being cashed by Messrs. ENDERS, SUTTON & Co., of Richmond. The amount obtained was $4,100. It was reported in Boston a day or two ago, that the supposed culprit had been captured there. Intelligence of the forgery having been communicated to the Police of this City, officers were detailed to watch for his arrival. About a week ago, Detective McCORD observed a man looking after some baggage at the dépôt of the New-Jersey Railroad, and from the excited and suspicious manner of the man, felt it his duty to observe his movements. The trunks had been newly-covered with canvas, and marked "A," and were taken to the express office of ADAMS & Co., and thence forwarded to Boston. On communicating the information to Captain WALLING, that gentleman detailed Detective ELDER to write to the police of Boston, as he thought perhaps it might be the Virginia forger. ELDER wrote to Captain JONES and BENJAMIN HERTH, two well-known detectives of Boston, who telegraphed back on Saturday last that they had traced the suspicious stranger to an obscure hotel near Blackstone-square, in that city. A telegraph dispatch was sent back to arrest him, and hold him until ELDER would arrive, which was done. The young man gave the name of EDWARD ARLINGTON, but refused to give any particulars about himself. The description given by the Richmond authorities answered for ARLINGTON to a nicety, and he was held for examination by Judge MAIN until Thursday last, when no one appearing from Virginia he was discharged. Detective ELDER was, however, loth to surrender the man, and stepping up to him said "I want you to go to New-York with me," which ARLINGTON assented to, and they arrived in this City yesterday morning. Yesterday a messenger arrived from Virginia with a requisition from Governor WISE, and the messenger being connected with the house of ENDERS, SUTTON & Co., and cognizant of the forgery, fully identifies ARLINGTON as the forger. It is alleged that the arrested party is connected with a skillful gang who perpetrated a series of forgeries on banks in this City over a year since. The Continental Bank suffered to the amount of $5,000, and the Market Bank of this City and the Hudson County Bank of Jersey City and other banks were also victimized. The manner of the forgeries was by buying a small bill of goods at stores, and, instead of taking change after paying for their purchases, they would take the checks of the merchants, so as to get acquainted with their signatures.

WHIG GENERAL COMMITTEE.—An adjourned meeting of the Whig General Committee was held last evening at Thorp's Hotel, Broadway—HIRAM KETCHUM, President, in the Chair. The Committee appointed to revise the By-Laws made a report, which was accepted, and the Committee was discharged. Messrs. HUSTED, COADY and DRAPER were appointed a Committee on Printing. The following gentlemen were appointed a permanent Executive Committee: First Ward—Thomas H. Coady; second, Hiram Corwin; third, H. O. Ross; fifth, Dr. J. S. Scofield; seventh, R. C. Gruger; eighth, Samuel Hall; ninth, Charles Hazelton; tenth, N. S. Husted; eleventh, Geo. H. Raymond; twelfth, Walter Brady; thirteenth, John H. Briggs; fifteenth, Edwin Dunn; eighteenth, S. A. Bunce; twenty-first, David Webb; twenty-second, Franklin C. Favor. There was no representation from the Fourth, Sixth, Fourteenth, Seventeenth, Nineteenth and Twentieth Wards. The vacancies will be filled hereafter. By request, the Secretary read the editorial of the *National Intelligencer* on the occasion of publishing the letters of Ex-Governor GRAHAM, of North Carolina, and the Hon. D. D. BARNARD, of New-York, addressed to the Committee. Mr. QUIGG, one of the Committee, announced that Ex-Governor HUNT was in the City and would remain here ten days—that he had been detained from his intended visit on account of the death of his grandfather. He was with the Whigs in their present movement, heart and soul. A Committee of six was appointed to wait on Mr. HUNT after the meeting, to tender the respects of the General Committee, and to ascertain on what evening it would suit his convenience to have a formal reception, and make an address. The Secretary suggested that the Hon. WALTER PRESTON, of Virginia, a distinguished Whig, was also in the City, and it was voted to include that gentleman in the attentions of the Committee. The reception of these gentlemen would not be a public one, as Mr. HUNT had positively refused to make a public address; but it would be like that which was tendered to Mr. CRITTENDEN, a short time since, and would take place probably at the St. Nicholas or at Niblo's Saloon. The time for the meetings of the Committee will hereafter be on the first Monday evening of each month. The Committee then adjourned, and proceeded to the Clarendon Hotel to wait on Ex-Governor HUNT, and also to pay their respects to Mr. PRESTON, of Virginia.

THE WEATHER.—The storm which seldom fails to greet the return of St. Patrick's Day was on Thursday postponed, as if by special request, "for this occasion only," and, in its stead, there was one of the sunniest days of the season. Yesterday, however, as if gathering strength in its restraint, the storm broke forth with redoubled force. During the night the rain fell in torrents, and throughout the day a heavy gale prevailed from the southward and eastward, with continued squalls of rain. In the afternoon a dense fog set in, which for a time necessitated great caution in the movements of steamboats and ferry boats on the East and North Rivers. It was so thick and blowy that but few vessels arrived, and none went to sea. The Sound steamers, however, all left at their regular hours, but in going up the East River they could scarcely see each other, and were obliged to proceed slowly, continually blowing their whistles. Later in the evning the wind canted more to the westward, the fog disappeared, and the evening was quite pleasant, the moon and stars being only occasionably obscured by driving scud. The long prevalence of the easterly wind caused a very high tide, but so far as known no damage was done to the shipping in the harbor.

ANTICIPATED RIOT IN HASTINGS—POLICE SENT FROM THIS CITY.—Mr. WM. LARNED for several months past has had a large number of men employed at a marble quarry at Hastings, getting out marble for new Custom-houses, contracted to be built in New-Orleans and Charleston. A failure in receiving expected appropriations compelled him a few days since to discharge quite a number of his men. This compulsory movement, as subsequent developments proved, excited an intensely bitter feeling against him on the part of those who were discharged. Being obliged to reduce still further his force of men, and anticipating a serious riot unless he took measures to prevent it, he yesterday sent to this City for a posse of Policemen. Sergeant DIXON, of the Detective Police, and six officers were sent to Hastings in the afternoon, but with what result is not yet known.

DEATH OF GILES W. PORTER.—This excellent man and aged citizen died on Friday. Until within a few months, when stricken down with an illness which terminated fatally, Mr. Porter, though verging towards ninety, enjoyed tolerable health, and was in the possession of all his mental faculties. Forty years ago few men of business were better known or more respected among us, than Ira and G. W. Porter. They belonged to that class of enterprising mechanics, consisting of Benjamin Knower, Elisha Dorr, Thomas and Joseph Russell, William Fowler, &c., &c., who, in establishing reputations and making fortunes for themselves, contributed largely to the prosperity of the city.

Mr. Porter was a man of various information, decided character, and great directness and determination. He formed his religious and political opinions with perfect conscientiousness, maintaining both with uncompromising fidelity. He upheld honesty and virtue, and reproved fraud and vice, with an earnestness of language and manner which will long be remembered by those who knew him well.

Mr. Porter was a native of Connecticut. But he came to Albany when a young man, and has resided constantly among us for nearly seventy years. Of the large class of aged men whose venerable forms were but recently seen at funerals, how few survive! Dr. William Bay is left almost alone. Others are advancing rapidly towards that brink of life from which all step into eternity. Giles W. Porter had "set his house in order" many years ago, and lived as those only live who realize that the great duty of life is to prepare for death.—*Albany Evening Journal.*

CONSUMPTION CAN BE CURED!

BY THE USE OF WINCHESTER'S GENUINE PREPARATION OF
DR. CHURCHILL'S COMPOUND OF THE
HYPOPHOSPHITE
OF LIME, SODA AND POTASH,
As discovered and prescribed by Dr. Churchill, of Paris.
FOR CONSUMPTION!

The invariable efficacy of this extraordinary Remedy, is fully proved by the *rapid improvement* which follows its use, even in advanced stages of pulmonary disease that have been given up as hopeless by physicians. The following is the case of a lady who commenced the use of the Hypophosphites about the first of December last. It will be seen that the symptoms indicated an advanced stage of consumption with *softening of tubercles:*

MORIAH, Essex Co., N. Y., Dec. 31, 1858.

J. WINCHESTER—*Dear Sir:* * * * Much inquiry is made of us about the medicine and its effect in Mrs. H.'s case. * * * She was supposed to be a case of confirmed Consumption; had cough, chills and fever; raised large quantities of matter; has, at times, been confined and under the doctor's treatment. * * * About last August she was prostrated by the discharge of an abscess, raising large quantities of bloody matter. Her attending physician decided it to the ulceration of the left lung. From that she partially recovered, when she was again prostrated from the same cause, and, in the short space of a few weeks, had three or four hemorrhages of the same kind, accompanied by large quantities of ulcerated matter.

This was her condition when she commenced taking the HYPOPHOSPHITES. All other medicines were laid aside, except Dover Powders occasionally. It was soon evident and even *surprising to all to witness her daily improvement.* Her chills and fever subsided, strength and appetite improved, though she was not free from a cough, more troublesome mornings than during the day.

J. F. H.

MORIAH, Feb 9, 1859.

* * * I think Mrs. H continues to improve. She is now very comfortable, *is able to be about the house and see to her household affairs,* rides out frequently, coughs less, and has attended church a few times, half a day at a time—a thing she had not done for a long time previous to taking your medicine. She takes it faithfully, and has increased the dose. Yours, truly, J. F. H.

MORIAH, March 14, 1859.

Mr. WINCHESTER, *Dear Sir:* My husband enjoins it upon me to write, requesting another half-dozen bottles, should a continuation of treatment be thought advisable by yourself. I have just opened my last bottle, making eleven in all.

My cough is slight, contrasting it with time previous; left lung somewhat sensitive yet. I am taking daily exercise in the open air, by long rides and short walks, and my neighbors tell me I am looking more healthy than for weeks previous to my prostration. My voice, general strength and appetite are good—all symptoms, chills and fevers, &c., ENTIRELY DISAPPEARED. Information is almost daily required of us relative to the wonderful effect of the "Specific." * * * * *

A lady of my acquaintance, WHOSE CASE WAS PRONOUNCED HOPELESS, is rapidly improving under the treatment, with prospects of permanent recovery.

That your efforts to relieve the suffering may be crowned with success, is the ardent desire of one who appreciates your INVALUABLE REMEDY, your kind counsel and advice. Very truly yours, MRS. A. B. H.

The Hypophosphites have not only a REMEDIAL but a PRESERVATIVE POWER. *They are a complete prophylactic (preventive) to tubercular disease,* and act with INVARIABLE EFFICACY in all incipient cases, even of the acute kind, commonly called Galloping Consumption.

They are also invaluable in all forms of Nervous or General Debility, Asthma, Bronchitis, Dyspepsia, and loss of Vital Energy from whatever cause. Ladies suffering from complaints peculiar to their sex, will find this remedy act with charming effect, from its VITALIZING and RENOVATING power.

CAUTION TO THE PUBLIC.

The public are informed that my "Genuine Compound of the Hypophosphites of Lime, Soda, and Potash" will, after this date, be put up in extra large bottles, with the following words *blown in the glass:*

"DR. J. F. CHURCHILL'S HYPOPHOSPHITES OF LIME, SODA, AND POTASH, A SPECIFIC REMEDY FOR CONSUMPTION. J. WINCHESTER, NEW YORK."

Also, the *label* upon the bottle, and the wrapper has a *fac simile* of my signature. NO OTHER IS GENUINE.

Price $2 per bottle, or three bottles for $5. Allow no one to impose a fraudulent article upon you, but see that it is "WINCHESTER'S GENUINE PREPARATION" before you purchase. *Use no other.* Circulars sent to all who write inclosing a stamp.

A CARD.—The Manufacturers of the "CROWN SKIRTS" beg to state, that the very great favor with which "THE INDESTRUCTIBLE SKIRT" has been received, has made it necessary for them to make unusual exertions to supply the demand, and that they are now running their Manufactory night and day for this purpose, their orders requiring an immense increase in their production, in addition to their usual large production of

all of which is prepared expressly for them by their own makers and braiders—the very best in America. FRAUD.

We are credibly informed that certain parties, claiming to be respectable grocers, whose names we withhold for the present, are selling a spurious article, made the same size and mixed with WING'S Crackers, calling them all Farina and selling them altogether for the Genuine WING'S Farina Crackers.

If discovered, they assert that the imitation article got in by mistake, &c. Do honorable merchants act thus?

All are obliged to confide in their family grocer to a greater or less extent, and there are too many high-minded merchants engaged in the business to render it necessary for any respectable family to patronize persons guilty of such a fraud.

All genuine Farina Crackers have the name A. WING stamped on each Cracker. These may be obtained of the most respectable grocers, by whom they are extensively sold in different portions of the United States.

FIRST.

THE CULPRIT FAY:
A FAERY POEM.
By JOSEPH RODMAN DRAKE.

A charming Edition of this world-celebrated Poem, duodecimo, elegantly printed upon tinted plate paper, bound in muslin, and illustrated by John W. Ehninger, (designer of the photographic illustrations for Longfellow's "Miles Standish.")

PRICES:
In muslin, 50 cents.
In half-calf, $1 50.

THE CULPRIT FAY.
INCOMPARABLE.

"The exquisite poem of 'The Culprit Fay' was composed hastily among the Highlands of the Hudson in the Summer of 1819. The author—says his biography—was walking with some friends on a warm moonlight evening, when one of the party remarked that it would be difficult to write a faery poem purely imaginative without the aid of human characters. When the party was reassembled, a few days afterwards, 'The Culprit Fay' was read to them nearly as it is now printed."

* * * * *

THE CULPRIT FAY.
A CHEF D'ŒUVRE.

N. P. Willis says: "This is one of the most exquisite and absolute creations of pure imagination that has been produced since Shakespeare. * * * It is worth the outlay of a fever to get (by seclusion and depletion) the delicacy of nerve and perception to devour and relish with intellectual nicety this subtle-compounded feast of imagination."

* * * * *

THE CULPRIT FAY.
A LITERARY DIAMOND.

The Publishers offer this little volume to the amateur of elegant books as a rare specimen of printing, paper and binding. The exterior will be found in keeping with the interior, and as exquisite a gem as has appeared from the American Press. The very moderate price of 50 cents has been fixed upon, in order to insure the wide circulation which it merits.

TWO WAYS TO WEDLOCK.
From the New-York Daily News.

Never since the days of Goldsmith's "Vicar of Wakefield," have we read anything more beautiful than the story called "Two Ways to Wedlock."

* * * * *

TWO WAYS TO WEDLOCK.

The extraordinary popularity of this remarkable novel, which has created so much interest as it ran through the columns of Morris & Willis' *Home Journal,* has called for its publication in complete book form, and a large sale is anticipated.

* * * * *

TWO WAYS TO WEDLOCK.
From the New-York Courier.

No person possessing a taste for the beautiful should omit reading "Two Ways to Wedlock." It is without doubt the best story which has appeared this season. We understand that it is from the pen of a fashionable of the 5th-av. Morris and Willis pronounce it a specialty—a *bonne bouche* of inestimable value.

TRUTH FEARS NO LAW.

Personally appeared before me, Dr. S. B. SMITH, who did depose and say, that the certificates of cures published by him are true and genuine. M. L. STEPHENS, Commissioner of Deeds, Mayor's Office, City Hall.

MOTORPATHY AND MOTION-LIFE, BY H. HALSTEAD, M. D., is the title of a work in pamphlet form, combined from former editions, illustrating the principles and practice of a new theory of treatment for chronic diseases. This method is claimed to be particularly successful in the cure of complaints incident to woman. Of the validity of this claim, the Doctor's success in those diseases leaves little room to doubt. And to take the cases given as an index, we should think there were few diseases in which, in his hands at least, it had not a powerfully recuperative effect. We were particularly interested in what he says in relation to spinal difficulties, paralysis and lameness, and of cases cured of those tedious and usually considered incurable complaints. The author is well known as the principal physician in the Round Hill Water Cure, Northampton, Mass., and the great success of that institution gives weight to whatever comes from his pen.—*Republican Farmer.*

It has been thus described in one of Mr. Willis' letters from Idlewild: "This elevated point of land is at the junction of the Moodna River with the Hudson, and was once a magnificent terrace island, connected with the Highlands now by the causeway of the estate. It consists of about 115 acres; the terrace-lawn, in which stands the dwelling, being a superbly-wooded table-land of 30 acres, 120 feet above the water-level. The mouth of the Moodna River divides it from Idlewild. Its river front on the Hudson is very nearly a mile, with a water-grant to the channel. Its front slope is covered with grand forest trees, and under them are the fortifications built there by Washington. It might be divided into three noble estates, as the separate building sites are very favorable. Those who are on the look-out for a home of most lordly isolation and unsurpassed beauty of surroundings, will do well to give it a call. The drive to it from Newburg (three miles) is very fine." Those who visit it with a view to see the premises should take at least half a day for the excursion. Apply to HOMER MORGAN, No. 3 Pine-st., New-York; to P. A. VERPLANCK, on the premises, or B. W. BOURREY, Esq., No. 38 Wall-st.

NOTICE TO TAX-PAYERS.—OFFICE OF THE COMMISSIONERS OF TAXES AND ASSESSMENTS, No. 32 Chamber-st., New-York, Jan. 10, 1859.—Notice is hereby given that the Assessment Rolls of Real and Personal Estate in the City of New-York for the year 1859 are now open for public inspection, and will continue open until the 30th day of April next, inclusive. All tax-payers are earnestly requested to call and examine the same, in order that any errors in the assessments may be corrected. Also, all persons entitled by law to reduction of their assessments, by reason of being clergymen or for military services; and also literary and charitable institutions, by law exempt from taxation, are requested to make application for such reduction or exemption, previous to the closing of the rolls on said 30th day of April.

The following section of the act of April 16, 1857, is published for the information of tax-payers:

SEC. 12. During the time the books shall be open to public inspection, as hereinbefore provided, application may be made by any person considering himself aggrieved by the assessed valuation of his real or personal estate, to have the same corrected. If such application be made in relation to the assessed valuation of real estate, it must be made in writing, stating the ground of objections thereto, and thereupon the Commissioners shall examine into the complaint, and if, in their judgment, the assessment is erroneous, they shall cause the same to be corrected. If such application be made in relation to the assessed valuation of personal estate, the applicant shall be examined under oath by the said Commissioners or any of them, and if, in their judgment, the assessment is erroneous, they shall cause the same to be corrected, and declare their decision thereon within thirty days after such application shall have been made to them. No reduction shall be made by the Board of Supervisors of any assessment on real or personal estate imposed under this act, unless it shall appear, under oath or affirmation, that the party aggrieved was unable to attend within the period prescribed for the correction of taxes, by reason of sickness or absence from the City.—*Laws of 1857, page 509.*

CAUTION.—TO WATCH DEALERS AND JEWELERS.—NEW-YORK, March, 1859.—I. & M. T. LEVITT, London, England, and No. 19 Maiden-lane, New-York, chronometer and watch manufacturers, hereby inform the trade that certain of the plain watches and movements of their own make, bearing their names and that of Morris Tobias, No. 31 Minories London, imported into this country previously to the establishment of their agency, No. 19 Maiden-lane, under the management of J. H. BRADBURY, have been jeweled in this City in aqua marine stones, contrary to the principles on which their fine movements and first-class watches have heretofore been constructed, such alterations being not alone injurious to the durability of the watches by reason of the softness of the aqua marines, but calculated to impair the faith of purchasers of these goods whose reliance has been uniformly placed on their quality. In order therefore that there may be no mistaking the genuine movements, purchasers will find on examination that all watches and movements finished at their manufactory in London, England, are jeweled in Rubies and Chrysolites only, and for future protection the certificate which accompanies each watch or movement will be countersigned by their sole agent, J. H. BRADBURY.

DR. MAGNIN'S LUCINA CORDIAL OR ELIXIR OF LOVE.—This delightful and positive invigorant of the human system is fast superseding all other remedies; in fact, when its virtues become fully known, it will be the only remedy in use. Its action on the nervous system and reproductive organs is most extraordinary, allaying all over-excitement, and infusing into the nervous organization that degree of tension which is requisite to give the human system the enjoyment of its full powers, both mentally and physically. As an appetizer it is equally remarkable; assimilated with the gastric juices of the stomach, it assists them in most readily dissolving all nutritious substances, and converting them into pure and wholesome blood; thus the digestion is improved, and the whole framework of man moves on in a more vigorous and harmonious manner, hereby. Price $3 per bottle, or two bottles for $5. Principal office No. 293 Fulton-st., New-York. DR. MAGNIN.

WATTS' NERVOUS ANTIDOTE IS THE great regulator of the digestive organs. It improves the appetite, regulates the bowels and removes costiveness, by producing a healthy action. It would be useless to attempt to describe all the nervous diseases to which the Antidote is applicable. Guion's, No. 127 Bowery; J. W. Smith's, Court-st. or Montague-place Brooklyn, and of many other druggists. See that my name is on the label, then you will have the pure Antidote. JAMES T. STRATTON, No. 111 4th-av.

ESTABLISHED IN 1834.

Dr. HUNTER, No. 3 Division-st., offers to the public the only reliable remedy known in the wide world for the permanent cure and removal of every particle of the rank and poisonous virus of venereal disease, which is the genuine HUNTER'S RED DROP, made from the original recipe, in the possession of Dr HUNTER and not known by any other person living except Dr HUNTER, at No. 3 Division-st., one door from the Bowery, all the assertions of the many poisonous quacks to the contrary notwithstanding. Dr. H. has prepared every vial of this celebrated medicine with his own hands that has ever been offered for sale for the last thirty years, and has never intrusted any living person with the secret; consequently, everything offered for sale at any other place is a libel, a base and wicked counterfeit, got up by some unprincipled wretch that, for the sake of a dollar, would trifle with the lives of his fellow-men.

AFFAIRS AT ALBANY.

Court of Appeals' decision in favor of the Old Police—The New-York Tax Levy, cut down a Million and a Quarter Dollars, reported—The German Savings' Bank ordered to a third reading—No amendment to the Fire Insurance Act—Social Entertainments, &c., &c.

From Our Own Correspondent.

ALBANY, Friday, March 18, 1859.

There goes about a rumor which seems to be well-founded, that the Court of Appeals, at their consultation last Thursday, decided the thrice-argued question (the Court twice being equally divided) by a vote of five to three; that the old Police, by joining WOOD and RUSSELL, did not withdraw from the effect of the Metropolitan Act in their favor. That is, the old policeman whose case was appealed, is entitled to pay to this time precisely as if he had been on duty all the while; and of course that the other policemen whose cases were similar are entitled to pay. The three dissenting Judges are JOHNSON, DENIO and GROVER.

The Judiciary Committee have accomplished a Herculean task. They have gone through, item by item, your tax-levy. Though they have inserted several items additional to what were in when it came up, they have cut its aggregate down some million and a quarter of dollars. Among the items inserted are:

For arrears of Judges of the Supreme Court	$24,100
For Engine Company No. 20	18,000
Tompkins-square improvement	8,000
And to pay the Counsel for the Police Commission	19,000

The bill fixes the amount to be raised for County objects and purposes, including Police expenses, $2,175,092, included in which are:

Arrearages of 1858	$41,189
Arrearages of Police Department	136,730
For Commissioners of Records, for defraying expenses of contracts for Register's Office, (named above,)	250,000
Coroners' fees	22,600
Election expenses	25,000
Officers' fees	25,000
Police	1,226,365
Contingencies of Deputy Superintendent, for payment of judgments, and contingent expenses paid for appropriation of 1858	11,424

For expenses of government of the City, $4,905,527. Among which are included:

Battery Enlargement	$20,000
Belgian pavement	100,000
City Inspector's Department	12,000
Cleaning Streets	300,000
Cleaning Markets	7,000
Diamond Reef Blasting	20,600
Donations	15,000
Election expenses	20,000
Foundling Hospitals	25,000
Lamps and Gas	460,000
Salaries, City purposes	412,602

The last section of the bill is new. It provides that whenever the Comptroller shall believe that any judgment now of record against the Mayor, Aldermen and Commonalty of the City of New-York, or which may hereafter be obtained against them, shall have been obtained by collusion or founded on fraud, he is hereby authorized and required to take all proper and necessary means to open and reverse the same, and to use the name of the said Mayor, Aldermen and Commonalty, and to employ counsel for such purposes. Mr. MORRIS reported the bill this morning, and it is referred to the first Committee of the Whole.

The "German Savings Bank" was in Assembly's Committee of the Whole last evening. Mr. C. S. SPENCER moved to insert Mr. JOACHIMSSEN's name among the Corporators, but not knowing whether the other Corporators desired it, the Committee refused the amendment. Mr. COLEMAN, of the Committee that reported it, offered some amendments which made it conform to the standard by which all Savings Banks this year chartered have been measured. The friends of the bill accepted them. Mr. OPDYKE, for whose appearance (after his long illness) in the House, the bill had been delayed, objected to creating any new Savings Banks, as calculated to damage existing ones. Mr. MILLER, of Erie, Mr. SMITH, of New-York, Mr. TOMLINSON and Mr. TUTHILL defended the necessity of this one, and it was ordered to a third reading.

Mr. OPDYKE's bill amending the Fire Insurance Company act of 1853 was debated, amended, and its enacting clause struck out—the amendments having damaged it greatly in the eyes of its friends. Mr. TOMLINSON's act, providing that if any vacancy occur in the office of any Justice of the Superior Court of the City of New-York, or of any Judge of the Common Pleas, during his term of office, by death, resignation or tenure, the Governor shall appoint a person to fill the vacancy until the commencement of the next political year after the next ensuing annual election, was ordered to a third reading. The adjournment did not take place till near 11 o'clock, a fit of industry being on.

The House to-day agreed to have a Grinding Committee of two from each Judicial District, on motion of Mr. ABBOTT, of Cayuga. But a Grinding Committee, it must be remembered, is not as of old, a Committee to report complete. It simply selects from the orders such bills as it deems proper to ask the House to order back to the Standing Committee originally reporting for them to report complete. The House did not put any extraordinary degree of wisdom on exhibition (*me judice*) in ordering on joint resolution extra copies of the "Red Book" and of the "Civil List,"—but the friends of the propositions faced the music and recorded themselves overwhelming majorities when the Yeas and Nays were taken. Everybody having a bill to report, it was impossible to rise out of the pending order to the special order of Quarantine Removal.

Reports were made by Mr. VAN HORN, to establish free schools in county almshouses. Also, against the petition relative to school moneys. (Agreed to.) Also, to incorporate the New-York Woman's Hospital. By Mr. OPDYKE, from Select Committee to examine Deposits in Savings Banks, with a bill in relation to unclaimed deposits in Savings Banks. By Mr. LOOMIS, against incorporating the New-York Homœopathic Hospital. (Agreed to.) By Mr. HALL, a Prohibitory law. Also, relative to the transportation of convicts. By Mr. ABBOTT, the Consolidated State Prison act—complete. By Mr. JEREMIAH, minority report, on the Excise bills. By Mr. ANDRUS, authorizing a railroad through Grand-street, Brooklyn. Also, the New-Utrecht Health bill.

Mr. REILLY brought in a bill to authorize the Common Council of New-York to contract for lighting the City with gas. Mr. HALL brought in a bill to establish a Law Library in the Fourth Judicial District. Mr. CHRISTIE gave notice of a bill to incorporate the Staten Island Warehouse Company.

During the session of the Legislature Albany is noted for the variety of its entertainments. The variety adds a keen relish to what would otherwise become very monotonous. Last night one of the more select, *recherché* and tempting was given by G. C. DAVIDSON, Esq., who has just reached home after a long and unpleasant absence from the domestic fireside. The invited guests were principally State Senators, and other gentlemen of high character employed or engaged in the Railroad business of the country. It is said that the principal topic of conversation at the dinner-table partook of that character you would expect at a meeting of Railroad Directors and employer. The subject of affording greater facilities to the suffering citizens of up-town New-York was freely discussed, and the unanimous opinion was that more City railroads were needed. One of the first Senators—I believe the very first Senator in that body—having some old fogy notions of municipal rights, was very soon convinced that if he was an old man and a Democrat he had yet some new things to learn on such matters. The dinner was excellent, the wines were said to be very superior, the host was jolly and good-natured. No Grinding Committee has yet been agreed on in the Senate. GLAUCUS.

NEW-YORK LEGISLATURE.

SENATE....ALBANY, Friday, March 18.

On the reading of the Journal Mr. MATHER renewed his attempt to obtain a correction of the record by inserting the protest of the Democratic Members on Mr. MANDEVILLE's case.

The Chair decided it was not in order.

An appeal was taken, and the Chair again sustained.

Mr. NOXON reported a bill providing that all State officers' annual reports shall be published in the State paper on or before the 20th of November of each year, and copies forwarded to the Members of the Legislature.

The bill to protect the grounds of the Protestant Episcopal Schools in New-York was ordered to a third reading.

The Registry Law bill being received from the Assembly, it was, after discussion, made the special order for Monday evening.

The Temperance bill, and bills relating to the license amendment, were made the special order for Friday evening.

Mr. MATHER offered a resolution embracing the protest in the Mandeville case.

Mr. DIVEN objected to the reception of the resolution.

The Chair decided that it could not be received, as it sought to do indirectly what the Senate had decided should not be done, directly.

Mr. SCOTT claimed the right for any member on the floor to offer a resolution respectful in language. He read the resolution, to prove that it was respectful.

The Chair refused to receive it, and on appeal the Senate sustained the Chair.

Mr. LAFLIN moved to refer Mr. WETMORE's claim to Mr. MANDEVILLE's seat to the Committee on Privileges and Elections, with instructions to report as speedily as possible.

Before the question was taken, the special order was announced, and the Canal Appropriation bill taken up.

A long debate took place on Mr. NOXON's amendment, restricting the prohibition against the issuing of Canal drafts, by providing that no more drafts shall be made for work hereafter to be done, but only for work already contracted.

Mr. JOHN D. WILLARD moved a section, providing for a State tax for 1859 of half a million to pay the interest on that portion of Canal debt, created and incurred under and in pursuance of section 3, article 7 of the Constitution, as amended in 1854. Lost.

Mr. HUBBELL moved to increase the Black River appropriation to $60,000. Lost.

Mr. HUBBELL's amendment was then resumed in different shapes, varying a trifle from the sum first proposed.

After considerable skirmishing the bill was made the special order for to-morrow, and the Senate adjourned.

ASSEMBLY....ALBANY, Friday, March 18.

The first hour and a half of the session was occupied in a debate on the resolution for the forming of a Grinding Committee. Mr. TOMLINSON and others opposed the formation of such a Committee, but eventually the resolution was adopted. It creates a Committee of Nine to elect such bills as the majority deem proper to refer to the Committee to report complete, but no appropriation bill is to be referred.

Mr. SWEENEY reported favorably on the bill relative to streets and avenues in New-York north of One Hundred and Fifty-fifth-street.

The New-York Tax Levy was reported favorably.

Mr. SMITH moved that the bill be referred to the first Committee of the Whole. He advocated the motion by urging the importance of the speedy passage of the bill to a large number of persons in New-York, particularly the poorer classes.

Mr. C. S. SPENCER also advocated its reference.

The motion prevailed, and the bill was ordered to the first Committee of the Whole.

A large number of bills were reported from the Committees and placed on the general orders.

Mr. OPDYKE, from the Special Committee, reported a bill providing that the funds in the Savings Banks, unclaimed for 20 years, shall be advertised by the Banks for six months; if not then claimed that they shall be paid into the Treasury of the State, and that if they are afterwards claimed, on proper authority, the State shall pay them without interest.

Mr. LOOMIS reported against the incorporation of the New-York Homœpathic Hospital. Report agreed to and the bill rejected.

EVENING SESSION.

Mr. G. B. PALMER made a minority report against the passage of the State Prison bill.

The bill to provide for the removal of Quarantine was then taken up, the pending question being the substitute offered by Mr. TUTHILL.

Several verbal amendments were made to the substitute, when Mr. CONKLING took the floor and spoke at length against it.

Mr. WEEKS objected to the original bill because it permitted Coney Island to be used as a Quarantine site.

Mr. CHRISTIE expressed his intention to amend the original bill by excluding Coney Island.

Mr. MEEKS objected equally to the use of Barren Island as it was near enough to the main land to spread infection. He had confidence in the Governor, but did not think too much discretion should be given any man. He much preferred the provisions of the substitute, but there was much in both bills that was unnecessary. He thought that if the powers of the Commissioners were increased they could settle the whole matter.

Mr. SMITH moved to amend by providing that the Commissioners of Emigration shall take charge of the Quarantine buildings within one month of completion.

Mr. MEEKS favored the amendment.

Mr. CHRISTIE and Mr. CONKLING opposed it, and it was lost by 31 to 38.

Mr. TUTHILL then spoke at length in support of the substitute. The original bill would suffer the location of the Quarantine on Coney Island, in the very centre of civilization, whence infection could march directly to Brooklyn, New-York; or on Barren Island, which could never be approached by vessels, and which received the whole sweep of the ocean winds. The substitute limits the expenditure to half a million, whilst the original bill is unlimited. Under the original bill the Commissioners may begin building on the island with the knowledge that its completion will cost millions. Some limit should be made. It seemed singular to him that no mention had been made of Sandy Hook, which the Governor had recommended. Could this be the Governor's bill? He could not believe it. He had early in the session endeavored to press forward a bill, embodying the Governor's views, but failed. He still favored Sandy Hook, and would place $300,000 in the hands of the Commissioners for the purchase of the location of Sandy Hook. The substitute fixes the sale early in April. This is preferable to June, particularly to small purchasers. The substitute fixes the mode of sale, while the original bill does not. It was not possible to divest the original bill of suspicion and corruption, particularly when it is known that it is a bill advocated by the entire lobby. He believed there was corruption in it up to the elbows. He, however, earnestly desired the removal of Quarantine, and sooner than not accomplish that, would vote for the original bill, corruption and all.

Mr. SCHOLEFIELD spoke in ridicule of the charge that the lobby favored the original bill, and was influential in pressing it on.

Mr. TOMLINSON advocated the rejection of the substitute and the amendment of the original bill.

Mr. C. S. SPENCER called the gentleman to order, as casting reflections on the integrity of the Governor.

Mr. TOMLINSON spurned the insinuation of the gentleman from New-York. He declared it baseless and untrue, even to a personal extent.

Mr. C. S. SPENCER advocated the original bill.

Mr. CHRISTIE sustained the original bill, and attacked Mr. TUTHILL violently for insinuations on the floor and in the NEW-YORK TIMES, which he declared infamously false and untrue.

Mr. COIT advocated the principle embodied in the substitute.

After some remarks by Mr. ANDRUS, in favor of the speedy removal of the Quarantine, the substitute was voted down, there being only 25 votes in its favor.

The consideration of the original bill was then resumed.

Mr. MEEKS moved an amendment, providing that the Commissioners appointed under the act have the supervision of the sale of the property, after a regular appraisal. Lost.

Mr. LAW moved, that a clause be added, requiring a survey of the property and an appraisal to be made by the Surveyor-General before the sale. Lost.

Mr. SMITH renewed his amendment, requiring the Commissioners of Emigration to take possession of the Quarantine buildings, as soon as completed. Lost.

Mr. TUTHILL moved to amend, by prohibiting the location of Quarantine with n Richmond, Queens or Kings County, or within one mile of the main shore. Adopted.

On motion of Mr. HALL, the Committee rose and reported progress.

In the House, Mr. HALL moved to disagree with the report, and order the bill to be engrossed for a third reading.

Mr. TUTHILL moved to amend, by ordering the substitute to a third reading.

The Ayes and Nays were ordered on this motion, and it was lost by 23 to 59.

Mr. TUTHILL renewed the amendments offered in the Committee of the Whole, all of which were voted down.

The amendment adopted in Committee of the Whole prohibiting the location of Quarantine within one mile of the main shore, or within the boundaries of Kings, Queens or Richmond Counties, was stricken out by the House, and the bill was then ordered to a third reading.

The following were announced as the Grinding Committee: Messrs. Abbott, Shaw, Lawrence, Collins, Boughton, Ranney, G. P. Palmer, Wiley and Bowen. Adjourned at 11 P. M.

THE SAVINGS BANKS DEPOSITS.

Mr. OPDYKE, from the Special Committee, reported that they had visited the Banks in New-York and Brooklyn, and been received with uniform courtesy. They first visited the "Bank for Savings," the "Bowery Savings Bank," and the "Greenwich," which are the largest in the State, holding at the present time about thirty millions on deposit.

The unclaimed deposits in these Banks since Jan. 1, 1849, of which the depositors or their legal representatives may not be generally known to be now living, are as follows:

Bank for Savings	$116,882 02
Seamen's Bank	11,190 43
Bowery	7,017 74
Greenwich	3,614 99
Total	$138,705 18

Of this, $70,670 39 has remained unclaimed twenty years and upwards.

The amount in the Brooklyn Savings Banks is left blank in the report.

Two other Savings Banks in the State, chartered prior to 1849, have about $10,000 unclaimed deposits.

Other Banks, including smaller Banks in New-York, aggregate about $10,000.

This aggregate sum, although less than was supposed, and liable to reduction by claims, the Committee believe should be transferred to the State after 20 years, but not for a shorter period.

They therefore introduce a bill requiring Savings Banks, on or before the 1st of July of each year, to prepare a list of dividends, unclaimed for twenty years or upward, and to publish the same once a week for six months in a newspaper in the City or County, and to charge the expense of publication to the account advertised *pro rata*.

If, at the expiration of the six months any such deposits remain unclaimed, they are to be paid, together with their accumulated dividends, into the State Treasury. The State is to return the amounts, when legally claimed, without interest.

POLITICAL.—It is understood that neither GEO. HALL nor C. C. SMITH, the former nominated by the American Convention for Mayor, and the latter by the same Convention for Treasurer, will accept the nomination. Mr. HALL has his hands full as President of a new Insurance Company, and Mr. SMITH has also business enough on hand as cashier of a new bank. The Republicans in the Fifteenth Ward have made the following nominations: *For Alderman*—Daniel Manger. *For Supervisor*—John Suyden. *For Constable*—Joseph Wilkeyson.

FRIDAY, March 18—P. M.

When the ten million Government Loan was awarded on the 24th January at a better rate than certain leading Bankers in the Street had bid for it, it was suddenly deemed imperative, instead of facilitating the exchange of Specie with the Sub Treasury, not only to refuse further accommodation on the New Stock, but to cut down the line of Loans and Discounts generally so as to raise the price of Money. That this was particularly commendable, or that it was in any business sense called for, we doubted at the time. That it was "conservative" in the wrong direction—that is, against the rational laws of supply and demand and against the interest of the Banks who, in refusing themselves to make the exchange with the Sub Treasury, virtually drew down their own Deposits, (upon which no interest was paid,) *and in Specie* for this very object—the sequel has proved. The New Stock would have been more than equal to Specie to the Banks, if taken or loaned upon by them. The refusal to bid over 101, or to lend, did not save their Specie and lost their Deposits. The movement was dictated almost exclusively by four or five Bank Presidents, who have undertaken and signally failed on several occasions in the last twelve months to *put up* the price of Money against the real current of supply and demand, and to *put down* the credit, and to narrow the facilities for employing Treasury Bills and Government Stock. The process of curtailment was gone into early in February, and continued until last week. The effect upon the market for Money was but very temporary. It scarcely lasted a week. The effect upon the Discount line was $5,221,000, of which, at one time, the five Presidents referred to had curtailed $2,811,000, or more than half the total reduction by the fifty-four Banks. The effect upon the Deposit line, of the refusal of loans upon the Government Stock at a moderate interest, and at the same time reducing the general line of Discounts, was the withdrawal of $8,858,000, of which $3,826,000 went in Specie to swell the balance in the Sub-Treasury, and the remainder to pay off debt to the Banks themselves. The five Presidents in question stood lower, in the intermediate time, in their undrawn Deposits, by $4,346,000 than when their favorite process began, equal to more than half the total withdrawal of Deposits. Last week, when the movement was reversed, some of these gentlemen were the first to return to the practice of lending at a moderate interest on Government Stock. The aggregate line stood on Monday's return $984,000 above the minimum reduction, and these five Presidents stood $956,000 above their minimum! The whole demonstration in February amounts literally to nothing, so far as the available stock of Bullion in this City is concerned. Nor has it had the slightest influence upon the Foreign Exchanges or the facility of converting into cash the Bills Receivable of the Import trade; the supply of these Bills—running from two to eight months—now on the market being rather below than above the demand for them at Bank and with the Discount Brokers, at from 5 to 7 ₩ cent. The stock of Bullion on the 24th January was, in Bank, $29,472,000; in Sub-Treasury, $4,851,000—together, $33,798,000. On March 12, in Bank, $25,530,000; in Sub-Treasury, $8,626,000—together, $34,156,000. Of the net transfer to the Sub-Treasury, the five Bankers referred to contributed $2,223,000, and the forty-nine other Bankers $1,603,000.

We have stated the above facts relating to the last experiment to force the money market up, with no purpose to bring reproach upon the gentlemen who insisted upon its trial, but by way of commentary upon the frequent and pointless references with which the Street and the Public are regaled about conservative banking and a preservative bullion movement. Had the latter been really and chiefly involved when the change of market was essayed on the 24th of January, the purpose would have been commendable, and its new policy would have lived good to the end. But there was no export demand for Specie to be cared for at the time, and none likely soon to occur beyond the supply from California. About eight millions were required in exchange for Government Stock, more than one-half of which we have seen returned to Bank before the last payments were completed. The Specie was not to leave the City, and the Bank gentlemen knew it. It must perform the brief office of exchange with the Sub Treasury, and *they* could not prevent it. The same thing had been done in the Spring of 1858 and also in August when they wisely—though after much clamor in certain quarters—profited by the operation, and were never for a moment the worse off in point of real strength. The mistake seems to be that the public intelligence in reference to the true value and office of Specie in the banking movement is continually underrated where it should be best appreciated. It can scarcely be true that all the conservative Bankers referred to believe that nothing is sound or worthy of confidence but Gold. *That* would do for the New Lights at Clinton Hall. And yet the whole community are asked to believe, as indeed a good many of the Street and Clearing-House *croakers* affect to believe, that the employment of Treasury Bills and Government Bonds in the Discount line, in exchange for Gold, which for a few weeks must be taken from the Specie line, is tantamount to "ruinous expansion," and equally dangerous with the loss of Bullion, never to be restored again. The same cry was set up last Spring. But we then insisted that the Banks could hold nothing so good, and nothing, *not even Gold itself*, more available in the event of a rise in the price of Money for trade purposes, than these very Bills; that of the only two sources of demand for Gold upon the Banks, they would supply not the least important, that to the Custom-House. The bills were thus taken through the Spring and Summer to the amount of $12,000,000 or $14,000,000. The loss of the Gold in exchange was never felt at Bank, or really regarded by the public. The Bills were held with tenacity, even while other sums in Gold were paid out for Customs, (and are still held, in many cases, though part due,) and in August the investment was enhanced by $6,000,000 or $8,000,000 of Government Stock, as it is once more on the rise in March. It is too late, therefore, we submit, to create the slightest sense of apprehension in the Bank movement, because the Discount line goes up with such securities, and the Specie vibrates in consequence with the Sub-Treasury.

The previous dullness at the Stock Exchange was increased to-day. The dealings at the early Board were quite moderate in amount. The rainstorm seemed to act as an additional damper upon business. Prices, however, were fairly supported until the afternoon session, when the sellers against the market were inclined to press their contracts. Chicago and Rock Island sold at 59, and Galena at 68@68¼ ₩ cent., which are the lowest figures of the week. Michigan Guaranteed was followed down to 44¾ ₩ cent.; Toledo to 25⅞, and Illinois Central 67@66¾ ₩ cent. In regard to the last, we should have mentioned the other day that the London quotation of 63@65 ₩ cent. is in Sterling money, the exchange to be added to the cost of the shares to equalize the comparison with New-York. New-York Central and Missouri sixes showed more steadiness in price among the active speculatives, though the usual opposition was made to anything like a recovery to last week's quotations. Central closed 79¼@⅜ ₩ cent. There was more than usual done in Michigan Central at the first Board. The price closed 51⅛ ₩ cent., seller 60 days, and 51⅜@½ cash. In the new Federal Stock there was nothing done at the Board, the quotation 103⅞@104. A private sale of $200,000 was spoken of on the Street, the sellers accepting 103⅞@104, half and half. The general market left off dull, and prices for the Western shares weak. Pacific and Panama were steady.

The inactivity at the Stock Exchange and the comparative scarcity of prime short paper, add to the dullness of Money. A number of the leading Brokers had heavy balances over, which they were not able to use at 4@5 ₩ cent., and they were offered more at 4 ₩ cent. There is no change to note in the rates of Discount. The Customs are active within a day or two, although the Dry Goods entries of the week, it will be noticed, are light. The Customs to-day amount to $190,000. The payments out of the Sub-Treasury, $336,894, chiefly to reimburse Treasury Bills. The balance this afternoon is $9,182,757.

The Bremen steamer to-morrow will take a European mail and will call at Southampton. The business in Exchange, so soon after the Cunarder of Wednesday, is small; the rates about the same, first class Sterling 109⅝, Francs f.5.13⅞@f.5.12½.

The Philadelphia *Ledger* of this morning thus notices the Money market of that city:

> "In the money market we notice the same easy supply of capital that has characterized it for the past month. With an active business in mercantile walks the money is readily obtainable on first-class bills at about 6 ₩ cent., and paper less in favor at 8@10 ₩ cent."

GREENOCK, March 1—Owing to the unusual prevalence of south winds, some outward-bound vessels have been lying in our roads for periods running from a month to six weeks, a circumstance which has not occurred for many years.

Report of Capt. Jacob W. Plumer, master of the American ship John N. Cushing, from Newport, (Monmouthshire,) for Charleston, cargo railway iron and coal: Sailed on the 15th ult., wind light from the S. W., and proceeded down Channel as far as Lundy Island; wind blowing heavy from the westward, put back, and anchored at the Spit, eastward of the Holme Island, where they continued at anchor till the 28th ult. Sailed on that day, with the wind from S. W., moderate, and reached as far as Scilly Islands, the wind dying away, and a very thick fog coming, amidst which the ship got aground, notwithstanding that the lead was kept continually hove. At the time she took the ground there was four fathoms of water under her stern, the ship drawing 15 feet. All efforts to get her off failed, and the tide ebbing very rapidly, in the course of two hours the ship was left high and dry. Next tide, with the assistance of a tug, she was towed off and brought into Newport, evidently much strained, and a quantity of her copper torn off.

No family should be without these invaluable curatives. They are the only remedies perfectly adapted for domestic and private use. With them the parent is armed and prepared against the first approach of disease, and can meet it at the threshold and keep it at bay. A trifle of medicine rightly directed in the first hours of disease, perfectly cures that which by delay can only be relieved by long and tedious hours of suffering, if at all. With these at hand, you are not obliged to await the coming of that often distant as well as expensive luxury a bleeder; nor to be drugged, or poisoned, or blistered, or doctored, but may yourself administer the simple specific, and restore the ruddy current of life again to health and joy. There cannot only no injury arise in any case from their use, but the general influence upon the constitution beyond all question is most beneficial.
